MICRO COMPONENT DVD SYSTEM

微型 DVD 组合音响

UX-QD90S

Consists of CA-UXQD90S and SP-UXQD90S 由 CA-UXQD90S 和 SP-UXQD90S 组成

INSTRUCTIONS

使用说明书

Warnings, Cautions and Others / 警告,注意及其他须知事项

CAUTION

To reduce the risk of electrical shocks, fire, etc.:

- Do not remove screws, covers or cabinet.
- 2. Do not expose this appliance to rain or moisture.

注意

为了减少触电、火灾等危险:

- 1. 请勿擅自卸下螺丝钉、盖子或机壳。
- 2. 请勿让本机受雨淋或置于潮湿环境中。

CAUTION — O/I button!

Disconnect the mains plug to shut the power off completely (the STANDBY lamp goes off). The O/I button in any position does not disconnect the mains line

- When the system is on standby, the STANDBY lamp
- When the system is turned on, the STANDBY lamp lights green.

The power can be remote controlled.

注意 - 心/ 开关!

想要完全关闭电源 (让 STANDBY 灯熄灭), 须将电源插 头从插座上拔下。

无论 0/1 键处于何种位置,主电路仍旧没有关闭。

- 当系统处于待机状态时,STANDBY 灯点发红光。
- 当系统处于开启状态时, STANDBY 灯点发绿光。 电源开关可用遥控器进行控制。

CAUTION

- Do not block the ventilation openings or holes. (If the ventilation openings or holes are blocked by a newspaper or cloth, etc., the heat may not be able to get out.)
- Do not place any naked flame sources, such as lighted candles, on the apparatus.
- When discarding batteries, environmental problems must be considered and local rules or laws governing the disposal of these batteries must be followed strictly.
- Do not expose this apparatus to rain, moisture, dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.

注章

- 切勿堵塞通风口或通风孔。 (如果通风口或通风孔被报纸或布等物堵塞, 热量将无 法散出。)
- 切勿在本系统上放置明火,如点燃的蜡烛。
- 想要丢弃电池时, 务必考虑环保问题以及严格遵守当地 关于处理废旧电池 关的法律规定和条例。
- 切勿让本机受雨淋、受潮湿、落上或溅上水滴,亦勿在 本机上面放置盛满液体的容器,如花瓶。

IMPORTANT FOR LASER PRODUCTS / 镭射产品的重要说明

- 1. CLASS 1 LASER PRODUCT
- 2. **CAUTION:** Do not open the top cover. There are no user serviceable parts inside the unit; leave all servicing to qualified service personnel.
- 3. **CAUTION:** Visible and invisible laser radiation when open and interlock failed or defeated. Avoid direct exposure to beam.
- 4. REPRODUCTION OF LABEL: CAUTION LABEL, PLACED INSIDE THE UNIT.

- 1. 一级镭射产品。
- 2. 注意:请勿打开顶盖板,本机内部没有用户可自行维修 的部件:所有维修工作应由有资格的人员完成。
- 3. 注意: 当内部锁定装置失效或者损坏后, 打开盖板可能 会产生可见或不可见的镭射辐射。 应避免受到镭射光 東的直接照射。
- 4. 标签的复制标示: 注意标签位于机内。

CAUTION: Visible and invisible laser radiation when open and interlock failed or defeated. AVOID DIRECT EXPOSURE TO BEAM. (e)

ADVARSEL: Synlig og usynlig laserstråling når maskinen er åben eller interlocken fejler. Undgå direkte eksponering til stråling. (d)

VARNING: Synlig och den öppnas och spärren är urkopplad. Betrakta ei strålen. (S)

VARO: Avattaessa ja suojalukitus osynlig laserstrålning när ohitettuna tai viallisena olet alttiina näkyvälle ja näkymättömälle lasersäteilylle. Vältä säteen kohdistumista suoraan itseesi. (f)

Notes on Operation

Suitable Locations for the Main Unit

To minimize the need for servicing and maintain the high quality of this product, do not place the main unit in the following locations:

- In a position subject to high humidity or considerable dust
- · On an uneven or unstable surface
- Near a heat source
- Near a computer, fluorescent light or other electric appliance
- · In a small room with insufficient ventilation
- In a position exposed to direct sunlight
- · In a position exposed to excessive cold
- In a position exposed to strong vibration
- Near a TV. other amplifier, or tuner
- · Near a magnetic source

CAUTION

 The operating temperature of this product is 5°C to 35°C. Use in temperatures outside this range may cause a malfunction or damage the product.

Condensation

Under the following conditions, you may not be able to operate this product properly due to condensation formed on the lens of the main unit:

- When you have just started an air conditioner to warm your room
- When you have placed the main unit at an area with high humidity
- When you have moved the main unit from a cold place to a warm place

When condensation forms, leave the main unit turned on, wait for approximately 1 or 2 hours, and then operate the main unit.

Cleaning the Main Unit

When the operation panel becomes dirty, dust it with a soft dry cloth. When the operation panel is very dirty, wipe it with a cloth dampened with a small amount of a neutral detergent, and then wipe it with a soft dry cloth.

CAUTION

 Do not wipe the operation panel with thinners, benzenes or other chemical agents. Do not spray insecticides onto the operation panel. These may cause discoloration and damage to the surface.

Listener's Etiquette

When using headphones, keep the volume at a moderate level so as not to over-stimulate your ears.

■When enjoying sound from the speakers, adjust the volume to a suitable level to avoid disturbing your neighbors.

Even low-volume sound carries a long way, especially at night. Show consideration to your neighbors by closing windows or using headphones.

Playable DVD/CD Types

	CD-R/ CD-RW	DVD-R	DVD-RW
Audio CD	Playable	_	_
VCD/SVCD	Playable	_	_
MP3/WMA/JPEG	Playable	Playable ¹	Playable ¹
DVD Video	_	Playable	Playable
DVD VR	_	_	Playable ²

- Discs should be finalized before being played back.
- 1 Among MP3/WMA/JPEG discs, only discs formatted with ISO 9660 (known as UDF Bridge) are playable.
- 2 Only when a DVD-RW is compatible with CPRM (Content Protection for Recordable Media), DVD VR format can be used.

It is possible to play back finalized +R/+RW (DVD Video Format only) discs. "DVD" lights on the front display panel when a +R/+RW disc is loaded.

Some discs may not be played back because of their disc characteristics, recording conditions, or damage or stains on them.

Only sounds can be played back from the following discs:

MIX-MODE CD CD-G CD-EXTRA CD TEXT

Region code of DVD VIDEO

DVD players and DVD VIDEOs have their own region code numbers. This product can only play back a DVD VIDEO recorded with the region code number "3" (or any region code number that includes "3") or "ALL".

Examples:

If a DVD VIDEO with an improper region code number is loaded, "REGION CODE ERROR!" appears on the TV screen and playback cannot start.

 On some DVD VIDEOs, DVD AUDIOs, VCDs or SVCDs, their actual operation may be different from what is explained in this manual.
 This is due to the disc programming and disc structure, not a malfunction of this product.

Discs you can play back:

Disc Type	Mark (Logo)	
DVD VIDEO	VIDEO N	
DVD AUDIO	AUDIO/VIDEO" AUDIO	
VCD	OGTAL VOEC VIDEO CD	
SVCD	COMPACT VIDEO SUPER VIDEO SUPER VIDEO	
CD	COMPACT CISC DIGITAL AUDIO	
CD-R	COMPACT DIGITAL AUDIO Recordable	
CD-RW	COMPACT CISC DIGITAL AUDIO ReWritable	

About CD-Rs/CD-RWs and DVD-Rs/DVD-RWs

- Playback is impossible in some cases due to the disc characteristics, recording condition, scratches or dirt on the disc, or dirt or condensation on the lens.
- Before using a disc, carefully read the cautions regarding the disc.
- This product does not support playback or CD text display of sound files such as MP3s.
- To play back a CD-RW or DVD-RW on this product, erase all tracks if the CD-RW or DVD-RW was recorded in a format other than the format described on the left. Using the CD-RW or DVD-RW without erasing all tracks may result in damage to the speakers or other parts caused by sudden loud volume.

Discs that cannot be played back

 The following discs cannot be played back: DVD-ROM, CD-ROM, DVD-RAM, Photo CD, SACD. etc.

Playing back these discs will generate noise and damage the speakers.

- Damaged discs and discs in an extraordinary shape (other than a disc of 12 cm or 8 cm in diameter) cannot be played back.
- JVC do not guarantee the operation and sound quality of discs not authorized by CD-DA, which is a CD specification.

Before playback, confirm that the disc complies with this CD specification by checking the marks and reading notes printed on the package.

About MP3/WMA/JPEG discs

Playable MP3/WMA/JPEG discs and files

- CDs recorded in the ISO 9660 format are playable (except CDs recorded in the "packet write" format (UDF format)).
- CDs recorded in the multi-session format are also playable.
- Files with an extension of ".mp3", ".wma", ".jpg" or ".jpeg" (extensions with uppercase and lowercase letters mixed are also acceptable) are playable.
- This product cannot play back DVDs recorded in multi-session or multi-border format.

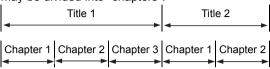

Notes on MP3/WMA/JPEG discs and files

- A disc may not be played back, or reading it may take a long time depending on its recording conditions or properties.
- The time needed for reading varies with the number of groups or tracks (files) recorded on the disc.
- If a character other than single byte English characters is used in the file name of an MP3/ WMA/JPEG file, the track/file name will not be displayed correctly.
- The order of tracks/groups displayed on the MP3/WMA Control screen, and the order of files/ groups displayed on the JPEG Control screen may be different from that of files/folders displayed on a computer monitor screen.
- In the case of MP3/WMA discs, since groups/ tracks are played back in alphabetical order, a commercially available MP3/WMA disc may be played back in an order different from that indicated on the label attached to the disc.
- Playing back an MP3 file including a still image may take a long time. The elapsed time is not displayed until playing back starts. If playing back starts, the elapsed time may not be displayed correctly.
- For an MP3 file, a disc with a sampling frequency of 44.1 kHz and transmission rate of 128 kbps is recommended.
- This product is not compatible with MP3i or MP3PRO.
- This product can play back a baseline JPEG file, excluding monochromatic JPEG files.
- This product can play back JPEG data taken with a digital camera conforming to the DCF (Design Rule for Camera File System) standard (when a function such as the automatic image rotation function of a digital camera is applied, the data no longer complies with the DCF standard, so the image may not be displayed).
- If data has been processed, edited and restored with PC image editing software, the data may not be displayed.
- This product cannot play back animations such as MOTION JPEG, still pictures (TIFF etc.) other than JPEG, or image data with sound.
- The resolution of 640 x 480 pixels is recommended for JPEG files. If a file has been recorded at a resolution of more than 640 x 480 pixels, display may take a long time. An image with a resolution of more than 8 192 x 7 680 pixels cannot be displayed.

Disc Structure

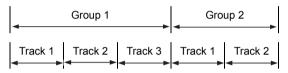

DVD VIDEO

A DVD VIDEO consists of "titles" and each title may be divided into "chapters".

DVD AUDIO

A DVD AUDIO consists of "groups" and each group may be divided into "tracks". Some discs include a "bonus group" that requires a password for playing (page 31).

VCD/SVCD/CD

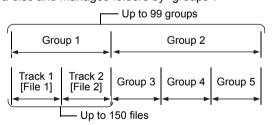

VCD, SVCD and CD consist of "tracks". In general, each track has its own track number. (On some discs, each track may also be further divided by indexes.)

MP3/WMA [JPEG] discs

On an MP3/WMA [JPEG] disc, each still picture (material) is recorded as a track [file]. Tracks [Files] are usually grouped into a folder. Folders can also include other folders, creating hierarchical folder layers.

This unit simplifies the hierarchical construction of a disc and manages folders by "groups".

This product can recognize up to 4 000 tracks [files] in a disc. Also, the product can recognize up to 150 tracks [files] per group and up to 99 groups in a disc. Since the unit ignores tracks [files] with numbers exceeding 150 and groups with numbers exceeding 99, these cannot be played back.

 If there is any type of files other than MP3/WMA [JPEG] files in a disc, those tracks [files] are also counted in the total file number.

Special Cautions

Notes on Handling

■Important cautions

Installation of the system

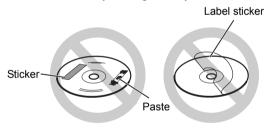

- Select a place which is level, dry and neither too hot nor too cold; between 5°C and 35°C.
- Leave sufficient distance between the system and the TV.
- Do not use the system in a place subject to vibration.

Power cord

- Do not handle the power cord with wet hands!
- A small amount of power is always consumed while the power cord is connected to the wall outlet.
- When unplugging the power cord from the wall outlet, always pull on the plug, not the power cord.

To prevent malfunctions of the system

- There are no user-serviceable parts inside. If anything goes wrong, unplug the power cord and consult your dealer.
- Do not insert any metallic object into the system.
- Do not use any non-standard shape disc (like a heart, flower or credit card, etc.) available on the market, because it may damage the system.
- Do not use a disc with tape, stickers, or paste on it, because it may damage the system.

Note about copyright laws

Check the copyright laws in your country before recording from CDs. Recording of copyrighted material may infringe copyright laws.

■Safety precautions

Avoid moisture, water and dust

Do not place the system in moist or dusty places.

Avoid high temperatures

Do not expose the system to direct sunlight and do not place it near a heating equipment.

When you are away

When away on travel or for other reasons for an extended period of time, disconnect the power cord plug from the wall outlet.

Do not block the vents

Blocking the vents may damage the system.

Care of the cabinet

When cleaning the system, use a soft cloth and follow the relevant instructions on the use of chemically-coated cloths. Do not use benzene, thinner or other organic solvents including disinfectants. These may cause deformation or discoloring.

If water gets inside the system

Turn the system off and disconnect the power cord plug from the wall outlet, then call the store where you made your purchase. Using the system in this condition may cause fire or electrical shock.

When condensation or water drops adhere to the lens

In any of the following cases, condensation or water drops may adhere to the lens to prevent the system from working properly:

- · Immediately after roomheating starts
- When the system is installed in a steamy or damp space
- When the system is suddenly moved from a cold place to a warm space

In any of these cases, leave the system turned on for 1 or 2 hours before use.

Supplied Accessories

Check to be sure you have all of the supplied accessories.

The number in parentheses is the quantity of the pieces supplied. If anything is missing, contact your dealer immediately.

Remote control (1) Batteries (2) FM antenna (1) AM loop antenna (1) Video cord (1) AC plug adaptor (1)

This product incorporates copyright protection technology that is protected by method claims of certain U.S. patents and other intellectual property rights owned by Macrovision Corporation and other rights owners. Use of this copyright protection technology must be authorized by Macrovision Corporation, and is intended for home and other limited viewing uses only unless otherwise authorized by Macrovision Corporation. Reverse engineering or disassembly is prohibited.

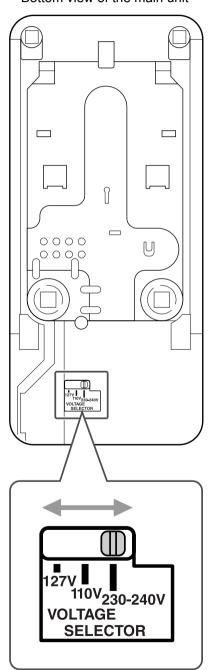

Voltage Adjustment

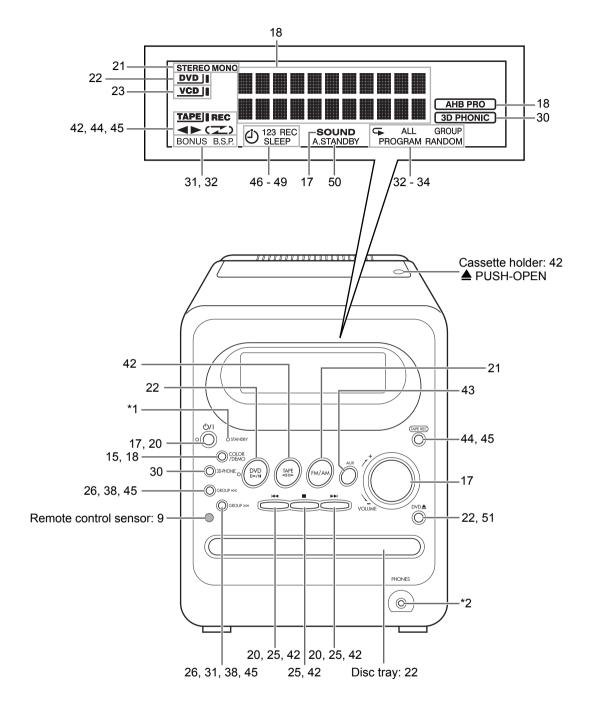

Before connecting the power plug, make sure that the voltage selector is set to the correct voltage for your area.

CAUTION

 DO NOT plug in before setting the voltage selector on the bottom of the main unit and all connections are complete.

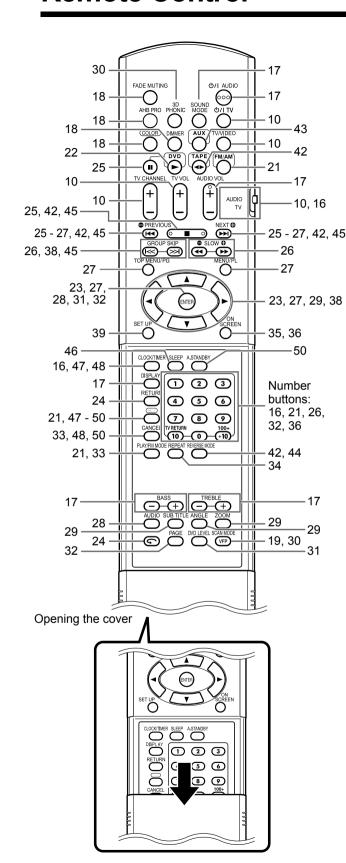

Bottom view of the main unit

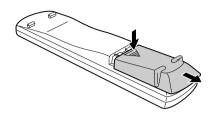

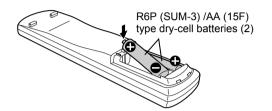

^{*1} When the power is turned off, the STANDBY indicator lights up red. When the power is turned on, the STANDBY indicator lights up green.

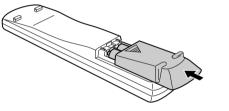

^{*2} This terminal is for connecting a pair of headphones equipped with a stereo mini plug (commercially available). While the headphones are connected, the speakers do not produce any sound.

Inserting Batteries into the Remote Control

CAUTION

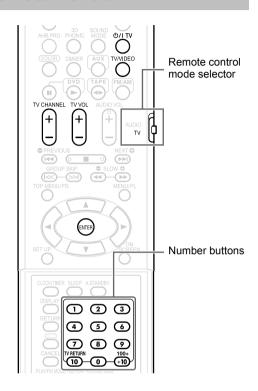

- Do not use a used battery and a new battery together.
- Do not use different types of batteries at the same time.
- Take out the batteries if the remote control is not to be used for a long time. Otherwise it may cause a leakage.

Remote control operation

- When operating the remote control, point it at the front panel of the main unit.
- The effective distance between the remote control and the remote control sensor on the main unit is approximately 5 m maximum.
- When the effective distance decreases, replace the batteries.
- Do not drop the remote control or subject it to excessive shock.

This page is for when operating your TV using the remote control of this product.

Operating the TV Using the Remote Control

Setting the manufacturer's code

1 Slide the remote control mode selector to the TV side.

2 Hold down $\bigcirc^{0/1 \text{ TV}}$.

Hold down on until step 4 is completed.

- 3 Press (ME) and release.
- 4 Press number buttons (1 9, 0).

Examples:

For a Hitachi TV: Press 1, then 0. For a Toshiba TV: Press 0, then 8. If there are two or more manufacturer's codes, try them in turn and select the one that enables the product to work properly.

Manufacturer	Code	Manufacturer	Code
JVC	01	Samsung	12
Hitachi	10	Sanyo	13
Magnavox	02	Sharp	06
Mitsubishi	03	Sony	07
Panasonic	04, 11	Toshiba	08
Philips	14	Zenith	09
RCA	05		

5 Release O'I TV.

NOTE

 The manufacturer's codes may be changed without notice. You may not be able to operate a TV produced by the manufacturer shown above.

For TV operation

Operate the remote control by pointing it towards the TV.

[⊕] /1 т∨	Turn on/off the power.	
TV CHANNEL	Change channels.	
TV VOL + -	Adjust volume.	
1 - 9 / 0 / ÷10	AUDIO TV 41	Select channels.
TV RETURN	Change between the previously selected channel and the current channel.	
TVWIDEO	Change between TV and video input.	

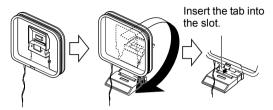

^{*1} Make sure to slide the remote control mode selector to the TV side in advance.

NOTE

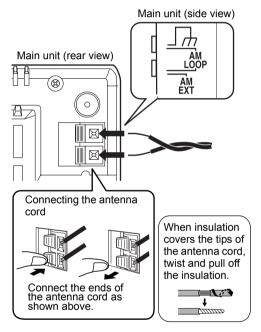

When the batteries are replaced, perform the manufacturer's code setting again.

Connecting the Antennas

- Connecting the AM antenna
- 1 Set up the AM antenna (supplied).

2 Connect the antenna cord.

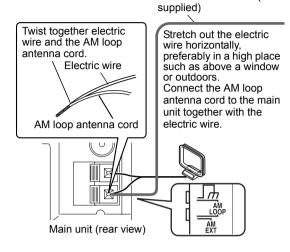

3 Turn the AM loop antenna to find the best position for radio reception.

Place the AM loop antenna as far from the main unit as possible.

 Do not place the AM loop antenna on a metallic table or close to a TV, computer, or other electric appliances. Doing so may affect radio reception. ■When radio reception with the supplied AM loop antenna is poor

Electric wire: 3 - 5 m (not

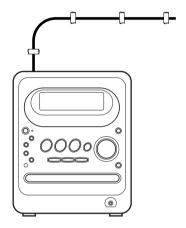

When positioning the antennas, find the best position for reception while listening to an actual radio program (refer to "Listening to Radio Broadcasts" (Per page 20)).

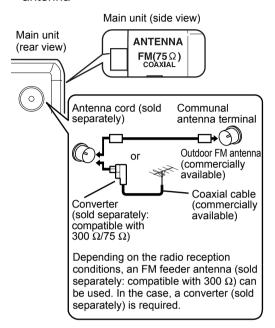

Connecting the FM antenna

Stretch out the FM antenna to the best position for radio reception, and then fix it with adhesive tape.

■When radio reception with the supplied FM antenna is poor, or when using a communal antenna

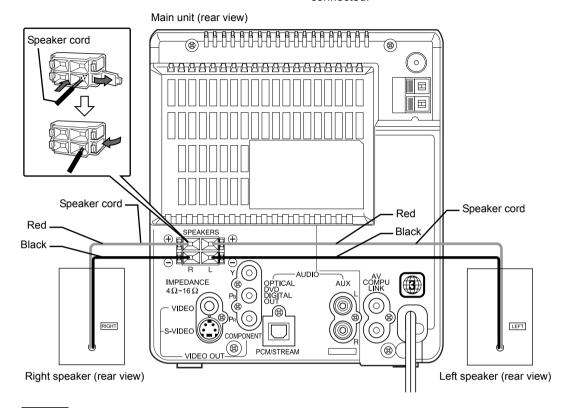

When using an antenna other than those supplied with this product, refer to the operation manuals for the antenna for details of connection.

When positioning the antennas, find the best position for reception while listening to an actual radio program (refer to "Listening to Radio Broadcasts" (page 20)).

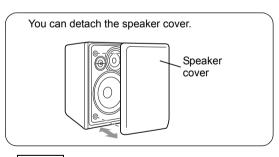

Connecting the Speakers

After connecting the speakers, gently pull on the speaker cords to make sure that they are firmly connected.

CAUTION

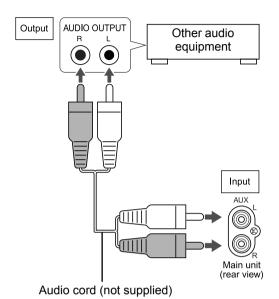

- Do not short-circuit the \oplus and \ominus speaker terminals. Doing so may damage the main unit.
- Do not connect other speakers together with the supplied speakers. The change in impedance may damage the main unit and the speakers.
- The speakers of this product are magnetically shielded, but color irregularities may occur on the TV depending on how the speakers are installed. Keep in mind the following.
- Turn off the main power of your TV before installing the speakers. Wait for about 30 minutes before turning on the TV again.
- If color irregularity occurs in pictures, keep enough distance between the TV and the speakers.

- Improper speaker cord connection spoils the stereo effect and sound quality.
- The impedance of speakers connected to this product must be within the range of 4 Ω to 16 Ω
- A cooling fan is built into the main unit. The internal cooling fan automatically rotates to dissipate generated heat. To ensure sufficient cooling, leave a space of at least 1 cm between the main unit and the speakers or other objects.

Connecting Other Equipment

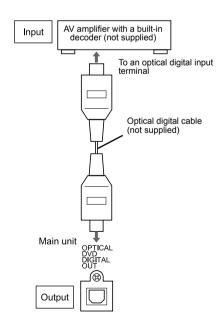

Read this section when connecting other audio equipment to this product.

CAUTION

 Before connecting other equipment, turn off both the main unit and the equipment.

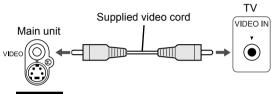

Connecting with digital equipment

CAUTION

- For details of signals to be output, refer to "List of relationships of DIGITAL AUDIO OUTPUT preference items and output signal". (page 40)
- If the main unit is connected to equipment with a Dolby Digital decoder, "D. RANGE COMPRES-SION" setting of "AUDIO" (pp page 40) is disabled for sound from the digital audio output of the main unit.
- Set "3D PHONIC" to "OFF" (page 30) when an external equipment is using a signal from the OPTICAL DVD DIGITAL OUT terminal on the main unit.

Connecting with a TV

CAUTION

 Connect the main unit directly with a TV (or a monitor) without routing through a VCR. Otherwise it may cause picture distortion while playing back. (Such picture distortion is caused by a copy protection system and is not a malfunction.)

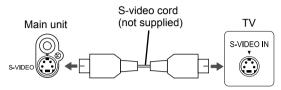

Also, if the main unit is connected to a TV with a built-in VCR, there may be picture distortion during playback.

- Before playing back the discs with video output, you need to select the color system and the video processing system. Refer to "Selecting the Color System and the Video Processing System (SCAN MODE)" (Page 19).
- You need to set "MONITOR TYPE" in the "PIC-TURE" menu correctly according to the aspect ratio of your TV. (1) page 39)

When a Clearer Picture Is Desired

You can enjoy pictures of better quality using the following cord instead of the supplied video cord.

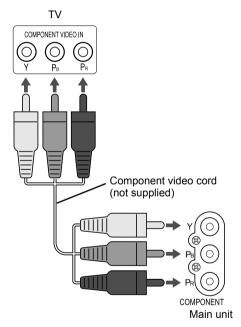

Connecting by using the S-video cord

Connect the ends of S-video cord making sure that each end matches its compatible terminal.

Connecting by using the component video cord

You can enjoy better quality pictures than when using the S-video cord.

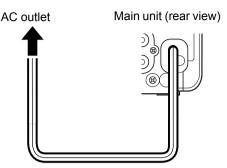

CAUTION

 Use one of either the S-video cord or the component video cord. If both cords are used, pictures may not be played back properly.

NOTE

- In order to enjoy pictures with the progressive mode (page 19), the TV is required to have progressive video input.
- If the component video input jacks of your TV are BNC type, use a plug adapter (not supplied) to convert the plugs.

Connecting the Power Plug

- After making all other necessary connections, connect in the power plug.
- If not using this product for a long period, disconnect the power plug from the AC outlet for safety and to save electricity.
- The clock setting will be lost after the power plug has been disconnected or the power is interrupted for more than 1 minute. The timer settings will be lost when the power is interrupted. When the power is restored, set the clock and the timers again.

Disabling the Demonstration Display

When you connect the power plug into the AC outlet, "DEMO START!" appears in the display window and the demonstration display starts. Before using the main unit, turn off the demonstration display by setting the function to "DEMO CLEAR".

■When the power is turned off

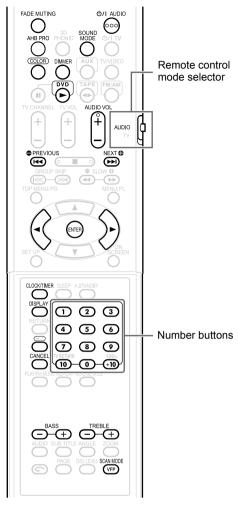

Hold down on the main until "DEMO CLEAR" appears.

Disconnecting and then reconnecting the power plug will not start the demonstration display.

- To activate the demonstration display again, hold down \(\) \(\) \(\) \(\) \(\) on the main unit while the power is off until "Hello" appears.
- Activating the demonstration display turns on the main unit.
- When you press a button on the main unit,
 "DEMO OFF" appears in the display window and the demonstration display is canceled. (Disconnecting and then reconnecting the power plug will start the demonstration display again.)

Basic Operations

This manual explains the operations assuming that you will use the remote control. Some buttons on the main unit are the same as those on the remote control.

CAUTION

• Set the remote control mode selector to AUDIO AUDIO before using the number buttons. TV

Using the number buttons

Examples:

(3)

13: **⊕**10 → **③**

20: $(+10) \rightarrow (10)$

23: $(10) \rightarrow (10) \rightarrow (3)$

Setting the Clock

You can set the clock while the main unit is turned either on or off.

Example: To set the clock to 10:10 a.m. on Wednesday

Example: 10 set the clock to 10:10 a.m. on wedne

1 Press

0:00 Sun

2 Set the hour.

Back Next

- Holding down the button causes the hour to increment.
- You can use the number buttons to specify the hour.
 Refer to "Using the number buttons" shown on the left.

10:00 Sun.

3 Press or or .

10:00 Sun.

- 4 Set the minute.
 - Set the minute in the same manner as in step 2.
- 5 Press or enter).
- 6 Set the day of the week.

• Each time you press PREVIOUS NEXT OF OF OF STATE OF OF STATE OF

10:10 Wed.

Abbreviations are used for the days of the week.

 $\begin{array}{ll} \text{Sun.} & \to \text{Sunday} \\ \text{Mon.} & \to \text{Monday} \\ \text{Tue.} & \to \text{Tuesday} \\ \text{Wed.} & \to \text{Wednesday} \\ \text{Thu.} & \to \text{Thursday} \\ \text{Fri.} & \to \text{Friday} \\ \text{Sat.} & \to \text{Saturday} \end{array}$

7 Press or or .

· The clock starts from 0 seconds in the minute you set.

NOTE

(Continued on next page)

Adjusting the clock

Press four times to display the clock, and then adjust the clock starting from step 2 on page 16.

Displaying the clock while using the main unit

Press repeatedly.

NOTE

- The time display on the main unit is a 24-hour
- · The clock will gain or lose approximately 1 minute per month.
- Set the clock again after you have disconnected the power plug or a power is interrupted.

Turning On/Off the Main Unit

Used frequently

ර/I AUDIO **Press** on the main unit).

• With the power off, pressing either button also turns on the main unit.

Remote control:

Main unit:

When a disc or cassette tape has been loaded, playback starts automatically.

NOTE

· Cooling fan is built into the main unit for emitting generated heat. When you turn on the main unit, the internal cooling fan automatically starts rotating.

Adjusting the Volume

Used frequently

AUDIO VOL **Press**

NOTE

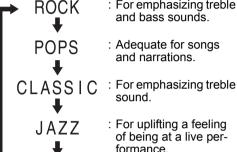

- · You can also adjust the volume by turning the VOLUME control on the main unit.
- You can adjust the volume within the range of 0 to 40.

Adjusting the Sound Quality

Selecting the sound mode

Press

· Each time you press , the display changes as follows.

MANUAL

ΙΑΤ

: For emphasizing treble and bass sounds.

and narrations.

: For uplifting a feeling of being at a live performance.

: For adjusting treble and bass sounds of your choice (shown below).

: Cancels the sound mode (factory setting).

· While the sound mode is set to an item other than "FLAT", SOUND is displayed in the display window.

· This function does not affect recording sound.

Adjusting bass/treble sound

- repeatedly to display "MANUĂL".
- For adjusting bass sound;

Press — For adjusting treble sound;

Press (=)-(+).

- You can adjust the sound quality within the range of -5 to +5.
- The display returns to the sound source display in a few seconds.

NOTE

While the sound mode is set to an item other than "MANUAL", "NO OPERATE" is displayed in the display window and you cannot adjust bass/treble sound.

Temporarily Turning Off the Sound (FADE MUTING)

Press FADE MUTING

- "FADE MUTING" appears and the volume reduces to "0".
- To return to the previous volume, press

 FADE MUTING again.

Emphasizing Heavy Bass Sound (AHB PRO)

Press AHB PRO

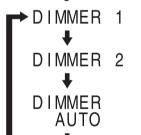

- Each time you press On, AHB PRO function changes between "ON" and "OFF".
- While AHB PRO function is activated,
 AHB PRO is displayed in the display window.
- "AHB PRO" stands for "Active Hyper Bass PRO".

Changing the Display Brightness (DIMMER)

You can change the brightness of the display window, the disc tray, and the circumference of the VOLUME control.

Press OIMMER.

• Each time you press on, the display changes as follows.

DIMMER

: Color pattern becomes dimmer.

Color pattern becomes darker, and switches to blue.

DIMMER 2 is automatically selected during video playback, and is canceled when the playback stops.

OFF: Cancels the brightness adjustment (factory setting).

NOTE

- You cannot turn off the color pattern.

Changing the Color Patterns

Press (or) on the main unit).

Each time you press On the color of the display window, the disc tray, and the circumference of the VOLUME control changes as follows.

NOTE

PURPLE

 You cannot set different colors for the color of the display window, the disc tray, and the circumference of the VOLUME control.

: A juicy grape color.

- When you operate a button on the main unit or remote control, the display window, the disc tray, and the circumference of the VOLUME control light in pale blue for approximately 2 seconds.
- When recording finishes, the color of the display window, the disc tray, and the circumference of the VOLUME control switches to red to inform you that recording has ended. Next time you press a button, the color pattern returns to the selected pattern.

Selecting the Color System and the Video Processing System (SCAN MODE)

Before playing back video discs, you need to select the color system and the video processing system.

NOTE

 Make sure that the main unit is connected with the TV using a component video cord when you select the progressive mode (page 15).

1 Press pvb, and then press

Hold down for approximately 2 seconds.

 Currently selected color system and the video processing system appear on the display window.

3 Press to select the desired system.

PAL	PAL color system in the interlace mode is selected.
PAL PROG.	PAL color system in the progressive mode is selected. Make sure that the TV supports PAL progressive video input (Page 15).
NTSC	NTSC color system in the interlace mode is selected.
NTSC PROG.	NTSC color system in the progressive mode is selected. Make sure that the TV supports NTSC progressive video input (Page 15).

"PAL PROG." or "NTSC PROG." gives finer detailed images than "PAL" or "NTSC".

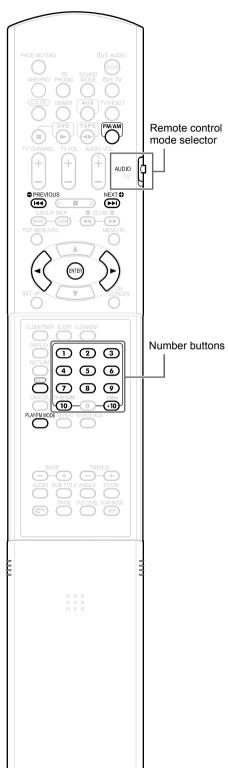

4 While the selected system is displayed, press (MTE).

- Some TVs may not be compatible with the progressive mode. In this case, select "PAL" or "NTSC".
- All progressive TVs and High-Definition TVs manufactured by JVC are compatible with "PAL PROG." and "NTSC PROG."
- Before playing back a disc, it is also required to select the correct "MONITOR TYPE" in the "PIC-TURE" menu according to the aspect ratio of your TV (**) page 39).
- If you play back an NTSC disc with this setting set to "PAL" or "PAL PROG.", you can watch the playback pictures (the disc will be reproduced using "PAL 60" format), but the TV screen may rolls over upward and downward rapidly.
- If you play back a PAL disc with this setting set to "NTSC" or "NTSC PROG.", you can watch the playback pictures, but the following symptoms may occur:
- The items on the disc menu will be blurred, and be shown slightly shifted when highlighted.
- The aspect ratio of the picture may differ from the original aspect ratio.
- The picture movement is not smooth.

Listening to Radio Broadcasts

Used frequently

This product can receive FM and AM radio broadcasts.

• Set the remote control mode selector to AUDIO AUDIO before using the number buttons. TV

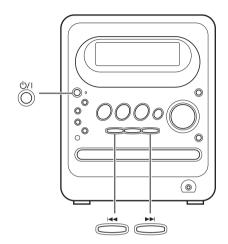

CAUTION

Setting the AM Tuner Spacing

Some countries space AM stations 9 kHz apart, and other countries use 10 kHz spacing.

On the main unit ONLY:

■When the main unit is turned off

To select 10 kHz spacing, while holding down on the main unit, press on the main unit to turn on the power. "AM 10 kHz SP" appears in the display window.

To select 9 kHz spacing, while holding down on the main unit, press on the main unit to turn on the power. "AM 9 kHz SP" appears in the display window.

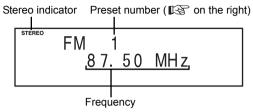

NOTE

• If the spacing is switched, the memory in which the radio stations were stored will be erased.

Selecting a Radio Station

1 Press to select "FM" or "AM".

Example: While an FM radio broadcast is received

Press or prepeatedly to select a radio station (frequency).

 You can also select a radio station using the automatic tuning.

Automatic tuning:

Hold down PREVIOUS or WITH until the frequency starts changing, and then release the button.

When the main unit has received a broadcast, the frequency automatically stops changing.

To quit the function while searching for a broadcast, press PREVIOUS or NEXT (FF).

 When the main unit has received an FM stereo broadcast, "STEREO" lights up.

Switching the FM reception (stereo/monaural):

If an FM stereo broadcast is difficult to hear because of noise, you may be able to hear more easily by pressing PLAY/FMMODE to switch the sound to monaural reception. In this case, "MONO" lights up. To return the sound to stereo reception, press PLAY/FMMODE again.

Storing Radio Stations (Preset)

You can store up to 30 FM radio stations and up to 15 AM radio stations.

- ■While the broadcast from the radio station you want to preset is being received
- 1 Set the remote control mode selector to AUDIO.

- 2 Press
 - The preset number flashes for approximately 5 seconds.
- While the preset number is flashing, press the number buttons

(1) - 10) or (10) to select the preset number you want to use.

- You can also select the preset number by pressing (or).
- 4 While the selected number is

flashing, press $\stackrel{\text{\tiny CET}}{\longrightarrow}$ or $\stackrel{\text{\tiny CET}}{\longrightarrow}$

 "STORED" appears and the selected radio station is stored.

NOTE

- The type of FM reception (stereo/monaural) is also stored (on the left).
- When you store a radio station to a preset number to which another radio station has previously been stored, the newly set radio station replaces the previously stored radio station.

Tuning In to a Preset Radio Station

- ■While an FM or AM broadcast is being received
- 1 Set the remote control mode selector to AUDIO.

- 2 Use the number buttons to select the preset number of the radio station to which you want to tune in.
 - Refer to "Using the number buttons" (page 16).
 - You can also select the preset number by pressing (or).

Basic Operations of the DVD Player

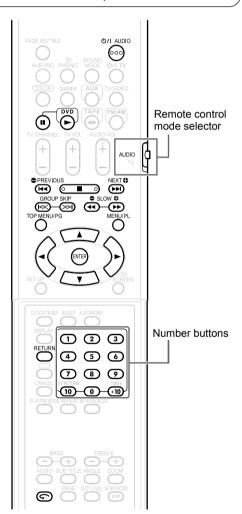

How to read this manual

- Operations are described by mainly using the remote control buttons. If there are the same marks on the main unit, the buttons on the main unit can also be used.
- The following marks tell you for which type of the discs the operation can be made.

- The illustrations and TV screens may be different between the actual case and the description.
- "DVD VR" means a DVD recorded in DVD Video Recording (DVD VR) format.
- "VCD" stands for "Video CD".
- · "SVCD" stands for "Super Video CD".

NOTE

- Set the remote control mode selector to $_{\rm AUDIO}$ AUDIO before using the number buttons. $_{\rm TV}$

 PREVI
- While a VCD or SVCD is being played back with PBC, press to return to the higher menu group.

Playing Back from a Position 10 Seconds Before (One Touch Replay)

DVD DVD VIDEO VR

■While a disc is being played back

Press ©.

- This operation may not work with some discs.
- You cannot return to the previous title.

Stopping Playback

Used frequently

DVD DVD DVD VCD C D MP3 WMA JPEG

■While a disc is being played back

Press **■ o**.

Resuming Playback (RESUME)

DVD DVD DVD VCD MP3 VIDEO AUDIO VR SVCD WMA

When playback is stopped in the middle, playback can be started from the stopped scene.

How to suspend playback

■While a disc is being played back
Perform any of the following operations during playback.

Press once.*

Press to turn off the power.

Change the source to FM/AM or AUX.*

* Even if the power is turned off by pressing

only AUDIO after this, the position where playback has been stopped will be stored.

How to start playback from the stored position

Press (DVD).

NOTE

- This function does not work in program playback or random playback.
- The position where playback starts again may be a little different from the stopped position.
- When a disc menu is displayed, the resume function may not work.
- The audio, the subtitle and the angle at that time are stored as well as the stopped position.
- The stored position will be cleared if the disc tray is opened. Further, if is pressed during playback, "RESUME" appears. If is pressed at this time, "RESUME" will disappear and the stored information will be cleared.
- Resume function is set to on as the initial preset. You can set the function to off (IST page 40).

Pausing Playback

DVD DVD DVD VCD C D MP3 WMA JPEG

■While a disc is being played back

Press (II).

To resume normal playback, press ().

Playback cannot be paused by pressing

on the main unit during JPEG disc slide-show.

Advancing Picture Frame by Frame

VIDEO VR SVCD AUDIO

└(only for moving images)

■While a disc is paused

Press (II).

- Each time you press (II), picture will be advanced frame by frame.
- You cannot operate this function with on the main unit.

Fast Reverse/Fast Forward Search Used frequently

VIDEO AUDIO VR SVCD C D WMA

There are two methods.

■While a disc is being played back

Press **④** or **▶**.

• To restore the normal speed, press (DVD)

Hold down $\stackrel{\Phi \text{PREVIOUS}}{\longleftarrow}$ or $\stackrel{\text{NEXT}}{\longleftarrow}$.

3 Press enter .

4 Press to select

5 Press at the starting point of the part to be repeated (designating A point).

• The icon on the menu bar will be 🔼.

6 Press at the end of the part to be repeated (designating B point).

• The icon on the menu bar will be 👛 🗚 ...

" \subset A-B" appears in the display window on the main unit and the part between A and B points is played back repeatedly.

Canceling A-B repeat playback

• To cancel A-B repeat playback:

• Press • • o.

• Select CAB and press (Select COFF.)

NOTE

 A-B repeat playback is possible only within the same title or track. A-B repeat playback cannot be carried out during PBC playback, program playback, random playback and repeat playback.

Designate the Time (Time Search)

DVD DVD DVD VCD C D

(PBC off)

■While a disc is being played back

1 Set the remote control mode selector to AUDIO.

2 Press CREEN twice.

• The menu bar appears (page 35).

3 Press () to select ⊕.

4 Press (NTER).

5 Enter the time using the number buttons (1-9, 0).

Example: When you want to play back a disc from the position of (0 hour) 23 minutes 45 seconds, press the buttons in the order:

 $\boxed{0} \rightarrow \boxed{2} \rightarrow \boxed{3} \rightarrow \boxed{4} \rightarrow \boxed{5}$

 You can skip entering "minutes" and "seconds".

If you enter wrong numbers, press delete the numbers, and then enter the numbers again.

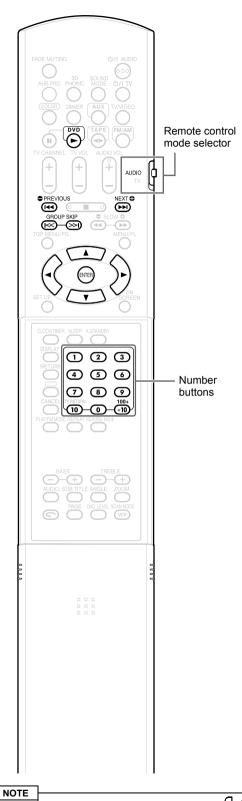

6 Press (NTER)

• To delete the menu bar, press SCREEN

NOTE

- This operation may not work with some discs.
- This function does not work during program playback or random playback.
- For a CD, this operation can always be carried out.
- Time search for a DVD VIDEO is from the beginning of the title, for a DVD AUDIO is from the beginning of the track being played back. Time search for a VCD, SVCD and a CD is as follows:
 - When the disc is stopped, time search is from the beginning of the disc.
 - When the disc is being played back, time search is within the track currently being played back.

Playing Back MP3/WMA and JPEG Discs

Playback

MP3 WMA JPEG

Display of an MP3/WMA disc is described here as an example.

For a JPEG disc, read "track" as "file".

NOTE

 When playing back a disc containing both MP3/ WMA and JPEG files, set one of them to be played (PP "FILE TYPE" on page 39).

1 Insert a disc.

Example: For MP3

TV screen

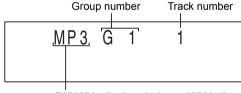

Tag information of the selected track (only for MP3s/WMAs)

Track list (Tracks contained in the selected group)

Example: For MP3

Display window

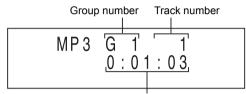

"WMA" is displayed when a WMA disc is loaded, and "JPG" is displayed when a JPEG disc is loaded.

- 2 Press 🗘 🔻 to select a group.
- 3 Press > to move to the track list.
 - Pressing returns to the group list.
- 4 Press to select a track.
- 5 Press PVD or EVED.

Example: For MP3 (during playback)

Elapsed playing time (This indicator is not displayed while a JPEG is loaded.)

- · At first, a track title (file name) is scrolled.
- When an MP3 or WMA is loaded, tag information (title/artist/album) is scrolled followed by a track title.
- Only alphanumerical one-byte characters are displayed properly as a track title or tag information.

NOTE

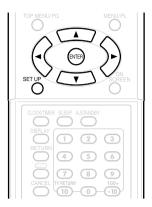

- You can also use GROUP SKIP in step 2.
- You can also use the number buttons in step 4. In this case, steps 3 and 5 are not needed. Refer to "Using the number buttons" (I) page 16).
- You can also use experious or in step 4. In this case, step 3 is not needed.

Slide-show playback JPEG

- For a JPEG disc, when you press 5, files are continuously played back from the selected file (slide-show playback). When you press only a selected file is played back.
- A file is displayed for approximately 3 seconds in a slide-show playback.
- After all files are played back, the playback is automatically stopped.

Preferences

You can change the initial settings of this product according to the environment the product is used in.

NOTE

· The top and bottom of the preference screen may not be displayed on a wide TV. Adjust the picture size on the TV.

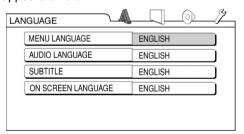

Basic Operations

This section explains basic operation for changing various settings.

■While a disc is stopped or no disc is loaded (while "NO DISC" is displayed)

1 Press SET UP.

• "SETTING" appears in the display window on the main unit and the following screen appears on the TV.

· Proceed with operations by following the description on the TV screen.

LANGUAGE

NOTE

- If the selected language is not recorded on the disc, the optimum language set for the disc appears.
- For a language code such as "AA", refer to the "Language Codes" (Propage 41).

Items	Contents
MENU LANGUAGE	Select the language for the DVD VIDEO menu.
AUDIO LANGUAGE	Select the audio language for the DVD VIDEO.
SUBTITLE	Select the subtitle language for the DVD VIDEO.
ON SCREEN LANGUAGE	Select the language displayed on the preference screens.

PICTURE

	Contents (: initial setting) Select a display method suitable for your TV.
	Select a display method suitable for your TV
	16: 9 /16: 9 MULTI (wide TV): Select this item when the aspect ratio of your wide TV is fixed to 16:9 (when playing back a DVD VIDEO recorded at 4:3, this product automatically adjusts the screen width of the output signal). 4:3 LB/4: 3 MULTI LB (letter box): Select this item when the aspect ratio of your TV is conventional 4:3. While viewing a wide screen picture, the black bars appear on the top and bottom of the screen.
S C F C	4:3 PS/4:3 MULTI PS (pan scan): Select this item when the aspect ratio of your TV is conventional 4:3. While viewing a wide screen picture, the left and right edges of the picture will not be shown on the screen. (If the disc is not compatible with the pan scan, the picture will be displayed at the letter box ratio.)
SOURCE	Select an item suitable to the video source. AUTO: The video source type (a video or film) is automatically selected. FILM: Select this item when you want to view a film or video recorded with the progressive scan method. VIDEO: Select this item when you want to view a normal video.
SAVER (Select the screen saver mode between ON /OFF (screen saver activates when there is no operation made for about 5 minutes since a still picture was last displayed).
TYPE S	If a disc includes an AUDIO file (MP3/WMA) and a STILL PICTURE file (JPEG), select which file is played back.

AUDIO

Items	Contents (: initial setting)	
	,	
DIGITAL AUDIO OUTPUT	Select an output signal type from the following in accordance with the equipment connected to the digital audio output terminal (AV amplifier, etc.). (See the list below for the preference items and output signal.)	
	PCM ONLY: Equipment corresponding only to linear PCM.	
	DOLBY DIGITAL/PCM: Dolby digital decoder or equipment having the same function.	
	STREAM/PCM: DTS/Dolby digital decoder or equipment having the same function.	
DOWN MIX	Switch signal from the digital output terminal of the DVD VIDEO according to the connected equipment. Select this when "DIGITAL AUDIO OUTPUT" is set to "PCM ONLY".	
	DOLBY SURROUND: A dolby pro logic decoder-built-in equipment.	
	STEREO : An ordinary equipment.	
	When 3D phonic is activated, Down Mix does not work.	
D (Dynamic). RANGE COMPRESSION	To make adjustments for the difference between a high volume and a low volume when playing back with low volume (only for a DVD recorded with Dolby digital).	
	AUTO: D. range compression automatically works.	
	ON: D. range compression always works.	

Items	Contents (: initial setting)	
RESUME	Select ON or OFF. (page 25)	
ON SCREEN GUIDE	Select whether you display guide icons on the on-screen guide indicating status of a disc/ main unit. (For details on the guide icons, refer to page 24)	
AV COMPU LINK MODE	When you want to control JVC TV by using this product, select a mode that matches the terminal from the following. (For more details, refer to "Using AV COMPU LINK" on page 51.)	
	DVD1 : Connect to the video-3 input on the TV set or the DVD input on the amplifier.	
	DVD2: Connect to the video-1 input of the TV set.	
	DVD3: Connect to the video-2 input of the TV set.	

List of relationships of DIGITAL AUDIO OUTPUT preference items and output signal

Playback disc	DIGITAL AUDIO OUTPUT preference		
Flayback disc	STREAM/PCM	DOLBY DIGITAL/PCM	PCM ONLY
48 kHz, 16/20/24-bit Linear PCM DVD VIDEO 96 kHz linear PCM DVD VIDEO	48 kHz, 16-bit stereo linear PCM

Listening to Cassette Tapes

	Operation	
Stop	Press ⊚ ■ ⊚.	
Fast forward/ Rewind	Press PREVIOUS • When a cassette tape is played back in the normal direction (►), PREVIOUS is fast forward and PREVIOUS is rewind. • When the cassette tape is played back in the opposite direction (◄), PREVIOUS is fast forward and PREVIOUS is fast forward and PREVIOUS is fast forward and PREVIOUS is rewind. • You can perform the same operation by pressing (◄) or ▶.	

Insert a cassette tape.

Cassette tape indicator

(The cassette tape indicator lights up while the cassette tape is stopped. The cassette tape indicator flashes while the cassette tape is being played back.)

direction (►: normal direction/<

i opposite direction)

CAUTION

- · Before using a cassette tape, wind up any slack in the cassette tape. (F "Handling casette tapes"
- Do not use long cassette tapes such as C-120 or C-150. Long cassette tapes are thin and stretch easily, and may become tangled in the inner part of the main unit.
- This product is compatible with playback of TYPE I cassette tapes. Playback of TYPE II or TYPE IV cassette tapes is not recommended. because this product does not meet the specifications for these tapes. The main unit does not produce the proper sound from these cassette tape types.

Press repeatedly to select the reverse mode.

: For one return playback of both sides

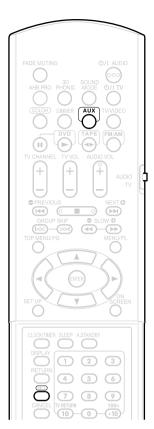

: For repeated playback of both sides (Playback continues until playback is stopped.)

: For one-way playback of either

Press

- Playback starts.
- When the main unit is turned off, pressing automatically turns on the main unit.
- Each time you press (TAPE), the cassette tape playback direction changes. The initial playback direction after you have inserted a cassette tape is always the normal direction.
- The cassette tape playback direction indicator facing right ► is displayed during normal played during reverse playback.

Listening to Other Equipment

1 Press Aux .

- 2 Start other equipment playback.
 - Refer to the operation manual for the connected equipment.
- 3 Adjust the volume and make other necessary settings.
 - For adjusting the volume and making other necessary settings, refer to "Basic Operations" (page 17).

Adjusting the Sound Input Level from Other Equipment

You can adjust the sound input level from the connected equipment.

 While the sound source is selected to AUX, you can adjust the sound input level.

Hold down in until the input level appears.

• Each time you hold down , the display changes as follows.

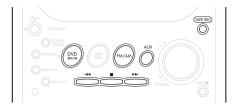

LEVEL 1 : For ordinary use. (factory setting)

LEVEL 2 : For increasing the input level from the connected equipment.

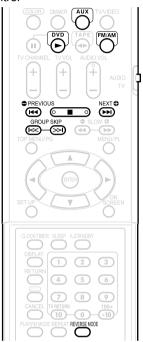

Recording Sound to Cassette Tapes

Used frequently

Main unit

Remote control

NOTE

- The sound input level during recording is automatically adjusted.
- When you record tracks from a disc, a 4-second blank is inserted between tracks in the recording. You can record tracks with no blank time.

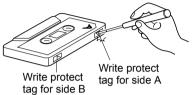

(Recording with No Blank Time between Tracks" on page 45)

CAUTION

- It may be unlawful to record or playback copyright material without the consent of the copyright owner.
- Do not use long cassette tapes such as C-120 or C-150. Long cassette tapes are thin and stretch easily, and may become tangled in the inner part of the main unit.
- Since this product is not compatible with TYPE II and TYPE IV cassette tapes, do not use these types of cassette tapes. This product does not meet the specifications for these tapes, so sound is not properly recorded to these types of cassette tapes. You cannot obtain proper playback sound.

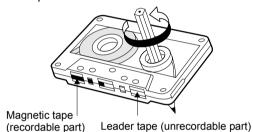

Preventing recorded sound from being erased

- Write protect tags are attached to a cassette tape for preventing the erasing of recorded sound. They enable you to avoid losing important recordings because once you snap off the write protect tags, you cannot record to the cassette tape or erase recorded material.
- When you want to use the cassette tape for recording again, cover the tag holes with adhesive tape.

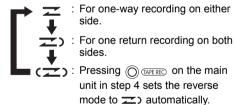

Insert a cassette tape for recording.

 Before inserting the cassette tape, wind the tape past the leader part of the cassette tape.

2 Press to select the reverse mode.

• Each time you press entered, the display changes as follows.

 You can change the reverse mode during recording.

3 Select a sound source for recording.

 Before selecting a sound source, make sure to stop a disc.

Sound source	Operation
Disc	Press (DVD), and then press (DVD).
Radio broadcast	Select the radio station whose broadcast you want to record (page 21).
Sound from other equipment (AUX)	Press on the other equipment (so page 43).

4 Press © TAPEREC on the main unit.

Example: Display while CD sound is recorded

- When you record from a disc, all tracks are recorded to the cassette tape.
- When you want to record sound from other equipment, start playback on the connected equipment.
- When recording finishes, the color of the display window, the disc tray and the circumference of the VOLUME control switches to red to inform you that recording has ended.

Quitting Recording

Press **■ ●**.

Recording Only One Track from a Disc

Before proceeding to step 4, play back the track you want to record.

- Pressing () (APPERC) in step 4 returns playback to the beginning of the track and only that track is recorded.
- This one-track recording is not available for DVD VIDEOs or DVD VRs.

Recording the Second or Subsequent Track to the Last Track from a Disc

(For a DVD VIDEO or DVD VR: while the playback is paused)

(For DVD VR: only when recording in original program)

■For a CD/VCD/SVCD/DVD VIDEO

Before proceeding to step 4, select the starting track/chapter number by

• PREVIOUS NEXT •

pressing Previous or NEXT Or FIDE.

■For a DVD AUDIO/MP3/WMA

Before proceeding to step 4, select the

group number by pressing (Sanour skip) , and then select the track

number by pressing PREVIOUS OR OF THE OF THE

Program Recording from a Disc

Before proceeding to step 4, program the tracks you want to record (

Recording with No Blank Time between Tracks

Before proceeding to step 4, play back a disc, pause the playback, and then press for to return to the beginning of the first track.

Erasing Recorded Sound from a Cassette Tape

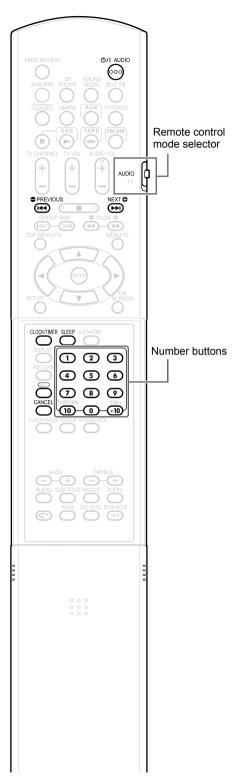

Select the sound from other equipment (AUX) in step 3, and then press

(TAPE REC) .

 Do not play back any tracks on the connected equipment.

NOTE

 If the cassette tape reverses direction while a track is being recorded from a disc, that track is recorded again from the beginning on the reverse side of the tape. However, if 12 or less seconds of that track were recorded on the first side of the tape, recording on the reverse side of the tape starts from the beginning of the previous track.

Sleep Timer

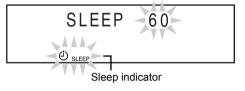

When the specified time passes, the main unit automatically turns off.

Press .

• Each time you press $\stackrel{\text{SLEEP}}{\bigcirc}$, the time display (in minutes) changes as follows.

$$\begin{array}{c} \longrightarrow 10 \longrightarrow 20 \longrightarrow 30 \longrightarrow 60 \longrightarrow 90 \\ \bigcirc \text{Cancel (Sleep} \longrightarrow 150 \longrightarrow 120 \longrightarrow \text{indicator disappears.)} \end{array}$$

Example: Display while the sleep timer is set to 60 minutes

NOTE

- When you set the sleep timer, the display window automatically dims.
- Before the clock has been set (While "0:00" is flashing), when you press , "CLOCK ADJUST!" appears.

Changing the sleep timer setting

Press repeatedly to select the time again.

Confirming the sleep timer setting (remaining time)

With the sleep timer activated, press once.

 Set the remote control mode selector to AUDIO AUDIO before using the number buttons.

Recording Timer

You can use the recording timer function to record FM/AM broadcasts or sound from other equipment to cassette tape.

You can enter up to three timer settings in total for the recording timer and the playback timer (Page 48).

NOTE

 Timer settings remain unchanged until the timer is replaced by new setting.

1 Prepare the sound source.

<u> </u>	
Radio	Preset the radio station whose broadcast you want to record. (page 20)
Other equipment	Follow the operation manual for the equipment.

- 2 Insert a cassette tape. (page 42)
- 3 Press repeatedly to select "TIMER1", "TIMER2" or "TIMER3".

Example: When "TIMER1" is selected

- 4 Press .
- Press ♣ PREVIOUS NEXT and to set the starting time and ending time.

Example:To set the recording time from 6:30 a.m. to 6:45 a.m.

- You can use the number buttons to set the recording time. Refer to "Using the number buttons" (page 16).
- For setting the time, refer to "Setting the Clock", step 2 to 5 (page 16).

Entering the "hour" $\to \stackrel{\frown}{\bigcirc} \to$ Entering the "minute" $\to \stackrel{\frown}{\bigcirc}$

Press ⊕PREVIOUS or PREVIOUS or PREVIOUS to select "ONCE" or "WEEKLY".

ONCE: The recording timer works

once.

WEEKLY : The recording timer works

weekly or every day.

- 7 Press 🛅.
- Press or by to select the desired day of the week.
 - Each time you press PREVIOUS or PREVIOUS or PREVIOUS, the display changes as follows.

When "ONCE" is selected.

When "WEEKLY" is selected.

- 9 Press .
- 10 Press ⊕PREVIOUS or ♠PREVIOUS to select "REC TIMER".
 - "REC" stands for "Recording".
- 11 Press 💍.
- 12 Press PREVIOUS or PREVIOUS to select a sound source.

Example: To record an FM broadcast to a cassette tape

- When you want to record sound from other equipment, you cannot use the recording timer function to start playback on any equipment other than this product.
- ■When you want to record an FM/AM radio broadcast
 - Press , and then press , NEXT or the number buttons to select the preset number of the radio station whose broadcast you want to record (propage 21). Refer to "Using the number buttons" (propage 16).

13 Press

The settings appear in the display window.
 Confirm the settings.

14 Press to turn off the main unit.

See You

- While the recording timer is functioning, the volume is set to "0" and no sound is produced from the speakers or headphones.
- The recording timer is available only when the main unit is turned off.

NOTE

• During operation, you can return to the previous step by pressing CANCEL. You can quit the recording timer settings by pressing COCCUTINER. The settings are not stored.

Canceling the recording timer

In step 2 on page 47, select the timer number you want to cancel, and then press \bigcirc^{CANCEL} . Even when you cancel the recording timer, the setting remains stored.

Activating the recording timer again

In step 2 on page 47, select the timer number you want to activate, and press . Then turn off the main unit.

Confirming the recording timer

In step 2 on page 47, press repeatedly. If you want to quit checking the recording timer, press

Changing the recording timer

Set the recording timer again from step 1 on page 47.

NOTE

- When you want to activate two or three recording timers, leave a blank time of 2 or more minutes between the ending time of the first recording timer and the starting time of the second recording timer. If the blank time is less than 2 minutes, the second recording timer does not work.
- When the power plug is disconnected or the power is interrupted, the recording timer settings may be lost. If the settings are lost, set the clock and recording timer again.

Playback Timer

Prepare the sound source you want to play back.

	=	
Disc	Make sure that a disc is loaded. (Page 22)	
Cassette tape	Insert a cassette tape. (P page 42)	
Radio	Preset the radio station whose broadcast you want to listen to. (page 21)	
Other equipment	Follow the operation manual for the equipment.	

Press repeatedly to select "TIMER1", "TIMER2" or "TIMER3".

Example: When "TIMER2" is selected

- 3 Press .
- 4 Press end, sexter and to set the starting time and ending time.

Example: When you want to set the playback time from 7:00 a.m. to 7:30 a.m.

- You can use the number buttons to set the playback time. Refer to "Using the number buttons" (P page 16).
- For setting the clock, refer to steps 2 to 5 in "Setting the Clock" (page 16).

Entering the "hour" $\rightarrow \bigcirc^{\blacksquare} \rightarrow$ Entering the "minute" $\rightarrow \bigcirc^{\blacksquare}$

5 Press ⊕PREVIOUS or ♠PREVIOUS or ♠PREVIOUS or ♠PREVIOUS or ♥PREVIOUS or ♠PREVIOUS or ♠PREVIOUS

ONCE : The playback timer works once.

WEEKLY : The playback timer works weekly or every day.

6 Press .

(Continued on next page)

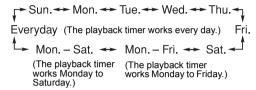

7 Press PREVIOUS or Details to select the desired day of the week.

• Each time you press PREVIOUS or HEXT (, the display changes as follows.

When "ONCE" is selected.

When "WEEKLY" is selected.

- 8 Press 🛅.
- 9 Press ⊕PREVIOUS or ♠PREVIOUS to select "PLAY TIMER".
- 11 Press PREMIOUS or DEN to select the sound source you want to play back.

Example: When you want to listen to an AM broadcast

- When you want to listen to sound from other equipment, you cannot use the playback timer function to start playback on any equipment other than this product.
- You cannot use the playback timer function together with program playback, repeat playback, random playback, or group playback
- When you want to listen to an FM/AM radio broadcast
 - (With "FM" or "AM" selected) Press , and then press (FREVIOUS, NEXT® or the number buttons to select the preset number of the radio station whose broadcast you want to listen to (FS page 21). Refer to "Using the number buttons" (FS page 16).

- When you want to play back a DVD VIDEO, DVD AUDIO or DVD VR
 - (With "DVD/CD" selected) Press twice. Regardless of the displayed numbers of group (G) and track (T), you can play back a DVD VIDEO, DVD AUDIO, or DVD VR only from the beginning of the disc.
- ■When you want to play back a CD, VCD or SVCD
 - (With "DVD/CD" selected) Press twice, and then press PREWIOUS, NEXT or the number buttons to select the number of a track (T) from which you want to start playback. Refer to "Using the number buttons" (Propage 16). The group number (G) is ignored.
- ■When you want to specify a track from which you want to start playback on an MP3 or WMA
 - (With "DVD/CD" selected) Press , press PREVIOUS, NEXT or the number buttons to select the group number (G) to be played back, press , and then press previous, NEXT or the number buttons to select the track number (T) to be played back. Refer to "Using the number buttons" (Press page 16).
- 12 Press 🖰.
- 13 Press PREVIOUS or PREVIOUS to adjust the playback volume.
- 14 Press .
 - · The settings appear in the display window.
- 15 Press on to turn off the main unit.

See	You
⊕ ²	

 The playback timer is available only when the main unit is off.

NOTE

- During operation, you can return to the previous step by pressing CANCEL. You can quit the playback timer settings by pressing CLOCK/INVER. The settings are not stored.
- When the playback timer starts, the volume gradually increases to the selected level.

For the locations of remote control buttons, refer to page 46.

Canceling the playback timer function

In step 2 on page 48, select the timer number you want to cancel, and then press CANCEL.

Even when you cancel the playback timer, the setting remains stored.

Activating the playback timer again

In step 2 on page 48, select the timer number you want to activate, and press . Then turn off the main unit.

Confirming the playback timer

In step 2 on page 48, press repeatedly. If you want to quit checking the playback timer,press

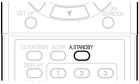

Changing the playback timer

Set the playback timer again from step 1 on page 48.

NOTE

- When you want to activate two or three playback timers, leave a blank time of 2 or more minutes between the ending time of the first playback timer and the starting time of the second playback timer. If the blank time is less than 2 minutes, the second playback timer does not work.
- When the power plug is disconnected or the power is interrupted, the playback timer settings may be lost. If the settings are lost, set the clock and playback timer again.
- When you operate the playback timer with a DVD VIDEO, DVD AUDIO or VCD, sound and video may not be played back automatically. A DVD VIDEO, DVD AUDIO or VCD may contain a disc menu that appears first when played back. Sound or video will not come out before you select the desired item to be played back on the disc menu.

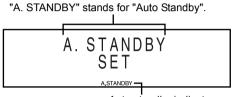

Auto Standby

If no sound is produced for 3 minutes when the disc or cassette tape is selected as a sound source, the main unit automatically turns off.

■When the disc or cassette tape is selected as a sound source

Press A.STANDBY

Auto standby indicator

Auto standby performance

When playback or recording finishes, auto standby starts the countdown (the "A. STANDBY" indicator flashes). When no operation is carried out within 3 minutes, the main unit automatically turns off. When you start playback or recording within 3 minutes, auto standby starts the countdown again after playback or recording finishes. When an operation other than playback and recording finishes and no operation is carried out within 3

minutes, the main unit automatically turns off.
"A. STANDBY OFF" indicator starts to flash 20 seconds before the main unit is to turn off.

Canceling auto standby

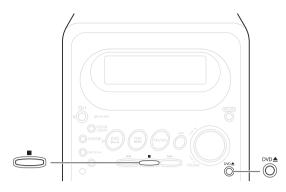

Press once again.

A. STANDBY CANCEL

NOTE

Leaving the volume at "0" is not the same as producing no sound, and therefore does not start the auto standby function.

Disc Ejection Lock

You can prohibit ejection of a disc.

■When the main unit is turned off

While holding down , press on the main unit.

Even if you press , "LOCKED" appears in the display window and the disc does not come out. In addition, when you press , while the main unit is turned off, "LOCKED" appears in the display window and the main unit does not turn on.

- Canceling the disc ejection lock
- ■When the main unit is turned off Carry out the operation explained above once again.

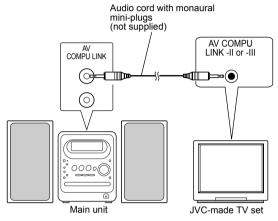

UNLOCKED

Using AV COMPU LINK

The JVC AV COMPU LINK system allows you to enjoy video or audio with the simplest operation. If your JVC TV set supports the JVC AV COMPU LINK system, simply starting the main unit will automatically make all necessary settings on the TV to allow you to enjoy the playback.

Connection and Setting

 Carefully read manuals of equipment to be connected.

Set the main unit's AV COMPU LINK MODE setting (page 40) as follows.

- When connecting to the VIDEO-1 input terminal of the TV: DVD 2
- When connecting to the VIDEO-2 input terminal of the TV: DVD 3
- When connecting to the VIDEO-3 input terminal of the TV: DVD 1

Operations

You can enjoy sound or video simply by starting playback on the main unit. You do not have to select the input setting for the TV, or turn on the TV beforehand.

- 1 Turn on the main power to the TV.
- 2 Insert a disc into the main unit.
- 3 Press on the main unit.

The following operation is performed automatically.

- The TV set will be turned on.
- TV input will be switched to external input (Video 1, 2 or 3) of the main unit.

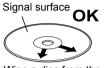

When you turn off the main unit, power to the TV is not turned off.

Handling Discs/Cassette Tapes

Handling discs

- Do not put adhesive tape or stickers, or write on a disc.
- · Do not bend a disc.
- Be sure not to use heart/flower shaped discs or other irregularly shaped discs. The use of such discs damages the main unit.

Cleaning discs

Scratches concentrated on a certain part cause sound dropout.

 Be sure not to use thinners, benzenes, cleaners for analog records, or other chemical agents.

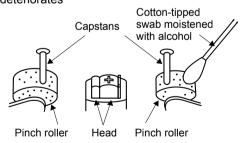

Handling cassette tapes

• A slack tape may become caught in the inner part of the main unit and damage the main unit.

Before using a cassette tape, wind up any slack in the cassette tape as shown on the right. Do not pull out the tape or touch the tape's surface.

Cleaning the tape deck head

 Clean the head, pinch rollers and capstans approximately every 10 hours of playback time before the volume falls or sound quality deteriorates

Cleaning the main unit cabinet

- Gently dust the cabinet surface with a soft dry cloth. When the cabinet is very dirty, dampen the cloth with a neutral detergent diluted with water, wring out the cloth well, and then wipe the cabinet with the dampened cloth followed by a soft dry cloth.
- Do not wipe the cabinet with thinners or benzenes. Wiping it with these agents may cause discoloration of the cabinet or removal of the paint. Do not spray insecticides or other highly volatile agents onto the cabinet. Do not leave pieces of rubber or plastic on the cabinet for a long period.

Disc Messages

Disc message	Meaning	Possible solution
CANNOT PLAY	You are trying to play back an unplayable disc or a disc that has many scratches.	Replace the disc.
NO DISC	No disc is loaded.	-
NO AUDIO	The disc may be an illegally copied disc.	You cannot listen to the disc.
LR ONLY	You are playing back a multi-channel track for which down-mix is prohibited.	This is normal operation.

Troubleshooting

Problem	Possible cause	Possible solution	Reference page
No sound/video is	Improper connection.	Connect all cords properly as in "Connections".	11 - 15
produced.	Headphones are connected.	Disconnect the headphone plug.	8
The clock display is flashing.	A power failure occured or the power plug was disconnected.	Reset the clock.	16
Disa playback does not	The disc is upside down.	Place the disc on the disc tray with the letter-printed surface facing up.	22
Disc playback does not start.	Moisture has condensed on the lens.	Leave the main unit turned on, wait for approximately 1 or 2 hours, and then operate the main unit.	3
A certain point cannot be played back properly.	The disc is scratched or dirty.	Clean or replace the disc.	52
The volume of cassette tape playback is low.	The head or capstans are dirty.	Clean the head or capstans.	52
You cannot record a cassette tape.	The cassette tape is write-protected.	Cancel the write-protection.	44
A radio broadcast cannot be received.	No antenna is connected.	Connect an antenna.	11
A whirring noise is produced.	The main unit is located close to a TV, computer, or other electric appliance.	Place the main unit away from a TV, computer, or other electric appliance.	3
	You did not set the clock.	Set the clock.	16
The timer does not work.	The main unit is turned on.	After setting the timer, turn off the main unit.	48, 49
You cannot operate the remote control.	The remote control batteries are running low.	Replace the batteries with new batteries.	9
You cannot operate the main unit with the number buttons on the remote control.	The remote control mode selector on the remote control is set to TV.	Set the remote control mode selector to AUDIO.	16
A noise comes from the rear of the main unit.	The internal cooling fan produces a noise as it rotates.	The noise is not a malfunction. This is to prevent excessive heat.	13, 17

If this product does not function properly even after you have implemented the possible solutions given above

Many functions of this product are implemented by microcomputers. If malfunction is caused by thunder or static electricity, or the main unit does not function properly even when you press a button, disconnect the power plug from the AC outlet, wait for a while, and then connect this product again. Then reset the clock.

INSTRUCTIONS

Warnings, Cautions and Others

CAUTION

To reduce the risk of electrical shocks, fire, etc.:

- 1. Do not remove screws, covers or cabinet.
- 2. Do not expose this appliance to rain or moisture.

CAUTION — O/I button!

Disconnect the mains plug to shut the power off completely (the STANDBY lamp goes off).

The O/I button in any position does not disconnect the mains line

- When the system is on standby, the STANDBY lamp lights red
- When the system is turned on, the STANDBY lamp lights green.

The power can be remote controlled.

CAUTION

- Do not block the ventilation openings or holes.
 (If the ventilation openings or holes are blocked by a newspaper or cloth, etc., the heat may not be able to get out.)
- Do not place any naked flame sources, such as lighted candles, on the apparatus.
- When discarding batteries, environmental problems must be considered and local rules or laws governing the disposal of these batteries must be followed strictly.
- Do not expose this apparatus to rain, moisture, dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.

IMPORTANT FOR LASER PRODUCTS

- 1. CLASS 1 LASER PRODUCT
- CAUTION: Do not open the top cover. There are no user serviceable parts inside the unit; leave all servicing to qualified service personnel.
- CAUTION: Visible and invisible laser radiation when open and interlock failed or defeated. Avoid direct exposure to beam.
- 4. REPRODUCTION OF LABEL: CAUTION LABEL, PLACED INSIDE THE UNIT.

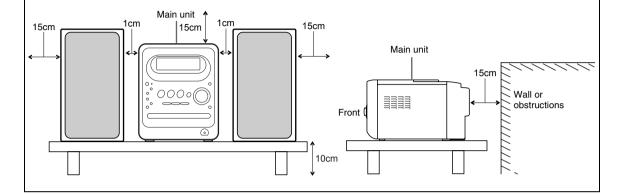

ı	CAUTION : Visible and invisible	ADVARSEL: Synlig og usynlig	VARNING: Synlig och	VARO : Avattaessa ja suojalukitus

	BEAM. (e)	stråling. (d)	strålen. (s)	kohdistumista suoraan itseesi. (f)

CAUTION — Proper Ventilation

To avoid risk of electric shock and fire and to protect from damage, locate the apparatus as follows: Top/Front/Back/Sides: No obstructions should be placed in the areas shown by the dimensions below. Bottom: Place on the level surface. Maintain adequate air path for ventilation by placing on

a stand with a height of 10 cm or more. In addition, maintain the best possible air circulation.

Notes on Operation

Suitable Locations for the Main Unit

To minimize the need for servicing and maintain the high quality of this product, do not place the main unit in the following locations:

- In a position subject to high humidity or considerable dust
- On an uneven or unstable surface
- Near a heat source
- Near a computer, fluorescent light or other electric appliance
- In a small room with insufficient ventilation
- In a position exposed to direct sunlight
- In a position exposed to excessive cold
- In a position exposed to strong vibration
- Near a TV. other amplifier, or tuner
- · Near a magnetic source

CAUTION

 The operating temperature of this product is 5°C to 35°C. Use in temperatures outside this range may cause a malfunction or damage the product.

Condensation

Under the following conditions, you may not be able to operate this product properly due to condensation formed on the lens of the main unit:

- When you have just started an air conditioner to warm your room
- When you have placed the main unit at an area with high humidity
- When you have moved the main unit from a cold place to a warm place

When condensation forms, leave the main unit turned on, wait for approximately 1 or 2 hours, and then operate the main unit.

Cleaning the Main Unit

When the operation panel becomes dirty, dust it with a soft dry cloth. When the operation panel is very dirty, wipe it with a cloth dampened with a small amount of a neutral detergent, and then wipe it with a soft dry cloth.

CAUTION

 Do not wipe the operation panel with thinners, benzenes or other chemical agents. Do not spray insecticides onto the operation panel. These may cause discoloration and damage to the surface.

Listener's Etiquette

When using headphones, keep the volume at a moderate level so as not to over-stimulate your ears.

■When enjoying sound from the speakers, adjust the volume to a suitable level to avoid disturbing your neighbors.

Even low-volume sound carries a long way, especially at night. Show consideration to your neighbors by closing windows or using headphones.

Playable DVD/CD Types

	CD-R/ CD-RW	DVD-R	DVD-RW
Audio CD	Playable	_	_
VCD/SVCD	Playable	_	_
MP3/WMA/JPEG	Playable	Playable ¹	Playable ¹
DVD Video	_	Playable	Playable
DVD VR	_	_	Playable ²

- · Discs should be finalized before being played back.
- 1 Among MP3/WMA/JPEG discs, only discs formatted with ISO 9660 (known as UDF Bridge) are playable.
- 2 Only when a DVD-RW is compatible with CPRM (Content Protection for Recordable Media), DVD VR format can be used.

It is possible to play back finalized +R/+RW (DVD Video Format only) discs. "DVD" lights on the front display panel when a +R/+RW disc is loaded.

Some discs may not be played back because of their disc characteristics, recording conditions, or damage or stains on them.

Only sounds can be played back from the following discs:

MIX-MODE CD CD-G CD-EXTRA CD TEXT

Region code of DVD VIDEO

DVD players and DVD VIDEOs have their own region code numbers. This product can only play back a DVD VIDEO recorded with the region code number "2" (or any region code number that includes "2") or "ALL".

Examples:

If a DVD VIDEO with an improper region code number is loaded, "REGION CODE ERROR!" appears on the TV screen and playback cannot start.

 On some DVD VIDEOs, DVD AUDIOs, VCDs or SVCDs, their actual operation may be different from what is explained in this manual.
 This is due to the disc programming and disc structure, not a malfunction of this product.

Discs you can play back:

Disc Type Mark (Logo)			
Disc Type	Mark (Logo)		
DVD VIDEO	VIDEO NIDEO		
DVD AUDIO	AUDIO/VIDEO* AUDIO		
VCD	COMPACT CISC Video CD		
SVCD	COMPACT VIDEO SUPERVIDEO SUPERVIDEO SUPERVIDEO		
CD	DIGITAL AUDIO		
CD-R	DIGITAL AUDIO DIGITAL AUDIO RECORDABLE		
CD-RW	COMPACT DIGITAL AUDIO REWritable		

About CD-Rs/CD-RWs and DVD-Rs/DVD-RWs

- Playback is impossible in some cases due to the disc characteristics, recording condition, scratches or dirt on the disc, or dirt or condensation on the lens.
- Before using a disc, carefully read the cautions regarding the disc.
- This product does not support playback or CD text display of sound files such as MP3s.
- To play back a CD-RW or DVD-RW on this product, erase all tracks if the CD-RW or DVD-RW was recorded in a format other than the format described on the left. Using the CD-RW or DVD-RW without erasing all tracks may result in damage to the speakers or other parts caused by sudden loud volume.

Discs that cannot be played back

- The following discs cannot be played back: DVD-ROM, CD-ROM, DVD-RAM, Photo CD, SACD. etc.
- Playing back these discs will generate noise and damage the speakers.
- Damaged discs and discs in an extraordinary shape (other than a disc of 12 cm or 8 cm in diameter) cannot be played back.
- JVC do not guarantee the operation and sound quality of discs not authorized by CD-DA, which is a CD specification.
 - Before playback, confirm that the disc complies with this CD specification by checking the marks and reading notes printed on the package.

About MP3/WMA/JPEG discs

Playable MP3/WMA/JPEG discs and files

- CDs recorded in the ISO 9660 format are playable (except CDs recorded in the "packet write" format (UDF format)).
- CDs recorded in the multi-session format are also playable.
- Files with an extension of ".mp3", ".wma", ".jpg" or ".jpeg" (extensions with uppercase and lowercase letters mixed are also acceptable) are playable.
- This product cannot play back DVDs recorded in multi-session or multi-border format.

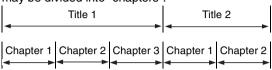

Notes on MP3/WMA/JPEG discs and files

- A disc may not be played back, or reading it may take a long time depending on its recording conditions or properties.
- The time needed for reading varies with the number of groups or tracks (files) recorded on the disc.
- If a character other than single byte English characters is used in the file name of an MP3/ WMA/JPEG file, the track/file name will not be displayed correctly.
- The order of tracks/groups displayed on the MP3/WMA Control screen, and the order of files/ groups displayed on the JPEG Control screen may be different from that of files/folders displayed on a computer monitor screen.
- In the case of MP3/WMA discs, since groups/ tracks are played back in alphabetical order, a commercially available MP3/WMA disc may be played back in an order different from that indicated on the label attached to the disc.
- Playing back an MP3 file including a still image may take a long time. The elapsed time is not displayed until playing back starts. If playing back starts, the elapsed time may not be displayed correctly.
- For an MP3 file, a disc with a sampling frequency of 44.1 kHz and transmission rate of 128 kbps is recommended.
- This product is not compatible with MP3i or MP3PRO.
- This product can play back a baseline JPEG file, excluding monochromatic JPEG files.
- This product can play back JPEG data taken with a digital camera conforming to the DCF (Design Rule for Camera File System) standard (when a function such as the automatic image rotation function of a digital camera is applied, the data no longer complies with the DCF standard, so the image may not be displayed).
- If data has been processed, edited and restored with PC image editing software, the data may not be displayed.
- This product cannot play back animations such as MOTION JPEG, still pictures (TIFF etc.) other than JPEG, or image data with sound.
- The resolution of 640 x 480 pixels is recommended for JPEG files. If a file has been recorded at a resolution of more than 640 x 480 pixels, display may take a long time. An image with a resolution of more than 8 192 x 7 680 pixels cannot be displayed.

Disc Structure

DVD VIDEO

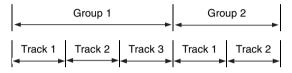

A DVD VIDEO consists of "titles" and each title may be divided into "chapters".

DVD AUDIO

A DVD AUDIO consists of "groups" and each group may be divided into "tracks".

Some discs include a "bonus group" that requires a password for playing (page 31).

VCD/SVCD/CD

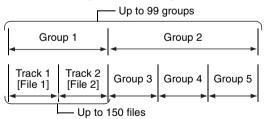

VCD, SVCD and CD consist of "tracks". In general, each track has its own track number. (On some discs, each track may also be further divided by indexes.)

MP3/WMA [JPEG] discs

On an MP3/WMA [JPEG] disc, each still picture (material) is recorded as a track [file]. Tracks [Files] are usually grouped into a folder. Folders can also include other folders, creating hierarchical folder layers.

This unit simplifies the hierarchical construction of a disc and manages folders by "groups".

This product can recognize up to 4 000 tracks [files] in a disc. Also, the product can recognize up to 150 tracks [files] per group and up to 99 groups in a disc. Since the unit ignores tracks [files] with numbers exceeding 150 and groups with numbers exceeding 99, these cannot be played back.

 If there is any type of files other than MP3/WMA [JPEG] files in a disc, those tracks [files] are also counted in the total file number.

Special Cautions

Notes on Handling

■Important cautions

Installation of the system

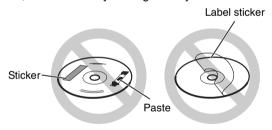

- Select a place which is level, dry and neither too hot nor too cold; between 5°C and 35°C.
- Leave sufficient distance between the system and the TV.
- Do not use the system in a place subject to vibration.

Power cord

- Do not handle the power cord with wet hands!
- A small amount of power is always consumed while the power cord is connected to the wall outlet.
- When unplugging the power cord from the wall outlet, always pull on the plug, not the power cord.

To prevent malfunctions of the system

- There are no user-serviceable parts inside. If anything goes wrong, unplug the power cord and consult your dealer.
- Do not insert any metallic object into the system.
- Do not use any non-standard shape disc (like a heart, flower or credit card, etc.) available on the market, because it may damage the system.
- Do not use a disc with tape, stickers, or paste on it, because it may damage the system.

Note about copyright laws

Check the copyright laws in your country before recording from CDs. Recording of copyrighted material may infringe copyright laws.

■Safety precautions

Avoid moisture, water and dust

Do not place the system in moist or dusty places.

Avoid high temperatures

Do not expose the system to direct sunlight and do not place it near a heating equipment.

When you are away

When away on travel or for other reasons for an extended period of time, disconnect the power cord plug from the wall outlet.

Do not block the vents

Blocking the vents may damage the system.

Care of the cabinet

When cleaning the system, use a soft cloth and follow the relevant instructions on the use of chemically-coated cloths. Do not use benzene, thinner or other organic solvents including disinfectants. These may cause deformation or discoloring.

If water gets inside the system

Turn the system off and disconnect the power cord plug from the wall outlet, then call the store where you made your purchase. Using the system in this condition may cause fire or electrical shock.

When condensation or water drops adhere to the lens

In any of the following cases, condensation or water drops may adhere to the lens to prevent the system from working properly:

- · Immediately after roomheating starts
- When the system is installed in a steamy or damp space
- When the system is suddenly moved from a cold place to a warm space

In any of these cases, leave the system turned on for 1 or 2 hours before use.

Supplied Accessories

Check to be sure you have all of the supplied accessories.

The number in parentheses is the quantity of the pieces supplied. If anything is missing, contact your dealer immediately.

Remote control (1) Batteries (2) FM antenna (1) AM loop antenna (1) Video cord (1)

This product incorporates copyright protection technology that is protected by method claims of certain U.S. patents and other intellectual property rights owned by Macrovision Corporation and other rights owners. Use of this copyright protection technology must be authorized by Macrovision Corporation, and is intended for home and other limited viewing uses only unless otherwise authorized by Macrovision Corporation. Reverse engineering or disassembly is prohibited.

Voltage Adjustment

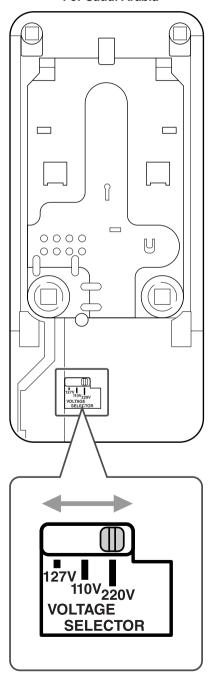

Before connecting the power plug, make sure that the voltage selector is set to the correct voltage for your area.

CAUTION

 DO NOT plug in before setting the voltage selector on the bottom of the main unit and all connections are complete.

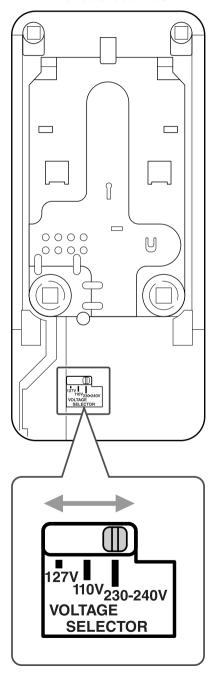

Bottom view of the main unit

• For Saudi Arabia

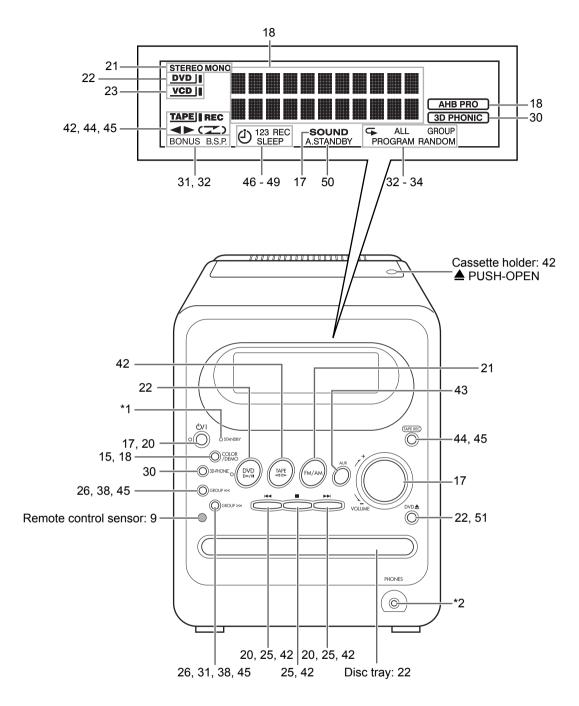

Bottom view of the main unit

Part Description

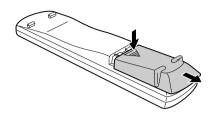

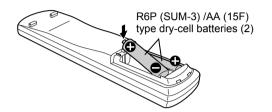

^{*1} When the power is turned off, the STANDBY indicator lights up red. When the power is turned on, the STANDBY indicator lights up green.

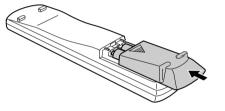

^{*2} This terminal is for connecting a pair of headphones equipped with a stereo mini plug (commercially available). While the headphones are connected, the speakers do not produce any sound.

Inserting Batteries into the Remote Control

CAUTION

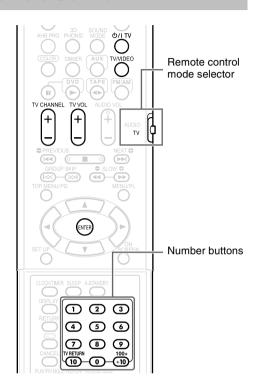

- Do not use a used battery and a new battery together.
- Do not use different types of batteries at the same time.
- Take out the batteries if the remote control is not to be used for a long time. Otherwise it may cause a leakage.

Remote control operation

- When operating the remote control, point it at the front panel of the main unit.
- The effective distance between the remote control and the remote control sensor on the main unit is approximately 5 m maximum.
- When the effective distance decreases, replace the batteries.
- Do not drop the remote control or subject it to excessive shock.

This page is for when operating your TV using the remote control of this product.

Operating the TV Using the **Remote Control**

Setting the manufacturer's code

Slide the remote control mode selector to the TV side.

Hold down $\bigcap^{\phi/l \, \mathsf{TV}}$.

Hold down on until step 4 is completed.

3 Press (NTER) and release.

Press number buttons (1 - 9, 0).

Examples:

For a Hitachi TV: Press 1, then 0. For a Toshiba TV: Press 0, then 8.

If there are two or more manufacturer's codes, try them in turn and select the one that enables the product to work properly.

Manufacturer	Code	Manufacturer	Code
JVC	01	Samsung	12
Hitachi	10	Sanyo	13
Magnavox	02	Sharp	06
Mitsubishi	03	Sony	07
Panasonic	04, 11	Toshiba	08
Philips	14	Zenith	09
RCA	05		

Release O/I TV

NOTE

• The manufacturer's codes may be changed without notice. You may not be able to operate a TV produced by the manufacturer shown above.

For TV operation

Operate the remote control by pointing it towards the TV.

Ф /1 T V	Turn on/off the power.		
TV CHANNEL	Change channels.		
TV VOL + -	Adjust volume.		
1 - 9 / 0 / ÷10	AUDIO TV 41	Select channels.	
TV RETURN	Change between the previously selected channel and the current channel.		
TVVIDEO	Change between TV and video input.		

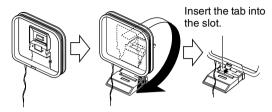

Make sure to slide the remote control mode selector to the TV side in advance.

 When the batteries are replaced, perform the manufacturer's code setting again.

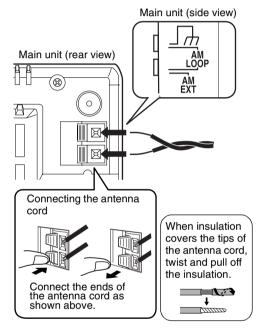

Connecting the Antennas

Connecting the AM antenna

1 Set up the AM antenna (supplied).

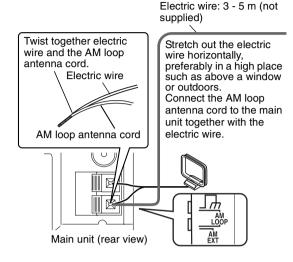

2 Connect the antenna cord.

3 Turn the AM loop antenna to find the best position for radio reception.

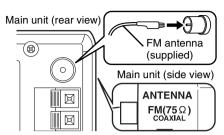

Place the AM loop antenna as far from the main unit as possible.

 Do not place the AM loop antenna on a metallic table or close to a TV, computer, or other electric appliances. Doing so may affect radio reception. ■When radio reception with the supplied AM loop antenna is poor

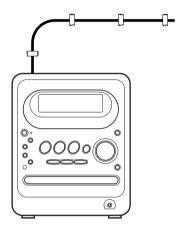

When positioning the antennas, find the best position for reception while listening to an actual radio program (refer to "Listening to Radio Broadcasts" (page 20)).

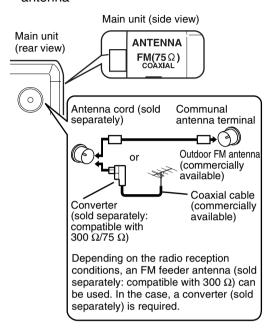

Connecting the FM antenna

Stretch out the FM antenna to the best position for radio reception, and then fix it with adhesive tape.

When radio reception with the supplied FM antenna is poor, or when using a communal antenna

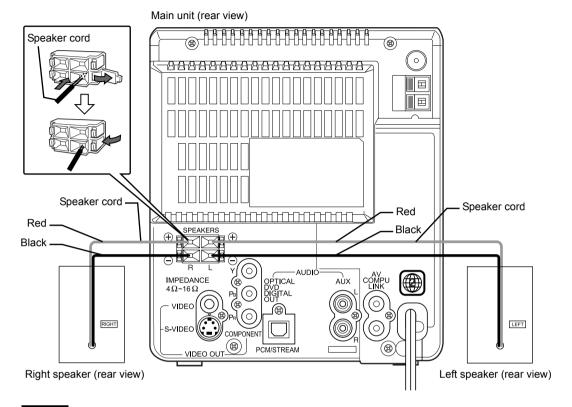

When using an antenna other than those supplied with this product, refer to the operation manuals for the antenna for details of connection.

When positioning the antennas, find the best position for reception while listening to an actual radio program (refer to "Listening to Radio Broadcasts" (page 20)).

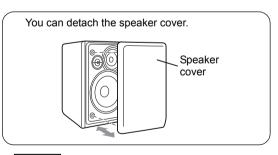

Connecting the Speakers

After connecting the speakers, gently pull on the speaker cords to make sure that they are firmly connected.

CAUTION

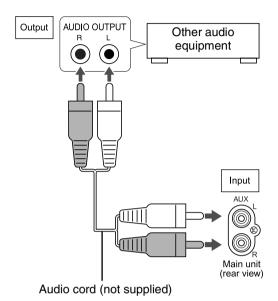

- Do not short-circuit the \oplus and \ominus speaker terminals. Doing so may damage the main unit.
- Do not connect other speakers together with the supplied speakers. The change in impedance may damage the main unit and the speakers.
- The speakers of this product are magnetically shielded, but color irregularities may occur on the TV depending on how the speakers are installed. Keep in mind the following.
 - Turn off the main power of your TV before installing the speakers. Wait for about 30 minutes before turning on the TV again.
 - If color irregularity occurs in pictures, keep enough distance between the TV and the speakers.

- Improper speaker cord connection spoils the stereo effect and sound quality.
- The impedance of speakers connected to this product must be within the range of 4 Ω to 16 $\Omega.$
- A cooling fan is built into the main unit. The internal cooling fan automatically rotates to dissipate generated heat. To ensure sufficient cooling, leave a space of at least 1 cm between the main unit and the speakers or other objects.

Connecting Other Equipment

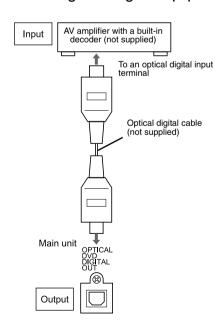

Read this section when connecting other audio equipment to this product.

CAUTION

 Before connecting other equipment, turn off both the main unit and the equipment.

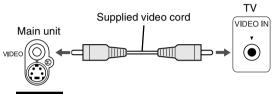

Connecting with digital equipment

CAUTION

- For details of signals to be output, refer to "List of relationships of DIGITAL AUDIO OUTPUT preference items and output signal". (page 40)
- If the main unit is connected to equipment with a Dolby Digital decoder, "D. RANGE COMPRES-SION" setting of "AUDIO" (pp page 40) is disabled for sound from the digital audio output of the main unit.
- Set "3D PHONIC" to "OFF" (page 30) when an external equipment is using a signal from the OPTICAL DVD DIGITAL OUT terminal on the main unit.

Connecting with a TV

CAUTION

 Connect the main unit directly with a TV (or a monitor) without routing through a VCR. Otherwise it may cause picture distortion while playing back. (Such picture distortion is caused by a copy protection system and is not a malfunction.)

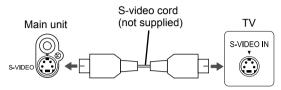

Also, if the main unit is connected to a TV with a built-in VCR, there may be picture distortion during playback.

- Before playing back the discs with video output, you need to select the color system and the video processing system. Refer to "Selecting the Color System and the Video Processing System (SCAN MODE)" (Page 19).
- You need to set "MONITOR TYPE" in the "PIC-TURE" menu correctly according to the aspect ratio of your TV. (page 39)

When a Clearer Picture Is Desired

You can enjoy pictures of better quality using the following cord instead of the supplied video cord.

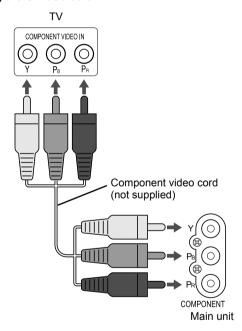

Connecting by using the S-video cord

Connect the ends of S-video cord making sure that each end matches its compatible terminal.

Connecting by using the component video cord

You can enjoy better quality pictures than when using the S-video cord.

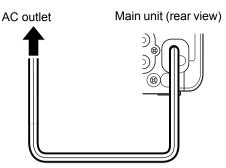

CAUTION

 Use one of either the S-video cord or the component video cord. If both cords are used, pictures may not be played back properly.

NOTE

- In order to enjoy pictures with the progressive mode (page 19), the TV is required to have progressive video input.
- If the component video input jacks of your TV are BNC type, use a plug adapter (not supplied) to convert the plugs.

Connecting the Power Plug

- After making all other necessary connections, connect in the power plug.
- If not using this product for a long period, disconnect the power plug from the AC outlet for safety and to save electricity.
- The clock setting will be lost after the power plug has been disconnected or the power is interrupted for more than 1 minute. The timer settings will be lost when the power is interrupted. When the power is restored, set the clock and the timers again.

Disabling the Demonstration Display

When you connect the power plug into the AC outlet, "DEMO START!" appears in the display window and the demonstration display starts. Before using the main unit, turn off the demonstration display by setting the function to "DEMO CLEAR".

■When the power is turned off

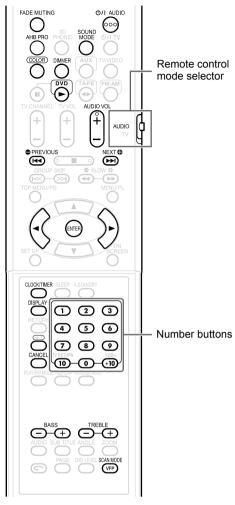

Hold down Open on the main until "DEMO CLEAR" appears.

Disconnecting and then reconnecting the power plug will not start the demonstration display.

- To activate the demonstration display again, hold down OCOLOR on the main unit while the power is off until "Hello" appears.
- Activating the demonstration display turns on the main unit.
- When you press a button on the main unit, "DEMO OFF" appears in the display window and the demonstration display is canceled. (Disconnecting and then reconnecting the power plug will start the demonstration display again.)

Basic Operations

This manual explains the operations assuming that you will use the remote control. Some buttons on the main unit are the same as those on the remote control.

CAUTION

• Set the remote control mode selector to AUDIO AUDIO before using the number buttons.

Using the number buttons

Examples: 3: (3)

> 13: $+10 \rightarrow 3$

20: $(+10) \rightarrow (10)$

23: $(10) \rightarrow (10) \rightarrow (3)$

Setting the Clock

You can set the clock while the main unit is turned either on or off. Example: To set the clock to 10:10 a.m. on Wednesday

Press

2 Set the hour.

Back Next

- Holding down the button causes the hour to increment.
- You can use the number buttons to specify the hour. Refer to "Using the number buttons" shown on the left.

Sun.

Press or (ENTER).

- 4 Set the minute.
 - Set the minute in the same manner as in step 2.
- Press or even.
- Set the day of the week.

• Each time you press ♣PREVIOUS NEXT♠ or the day of the week changes.

10:10 Wed.

· Abbreviations are used for the days of the week.

Sun. \rightarrow Sunday Mon. \rightarrow Monday

Tue. → Tuesday Wed. → Wednesday

Thu. → Thursday \rightarrow Friday

Sat. → Saturday

Press or (ENTER). · The clock starts from 0 seconds in the minute you set.

NOTE

· While setting the clock, you can return to the previous step by pressing CANCEL.

(Continued on next page)

Adjusting the clock

Press four times to display the clock, and then adjust the clock starting from step 2 on page 16.

Displaying the clock while using the main unit

Press repeatedly.

NOTE

- The time display on the main unit is a 24-hour clock
- The clock will gain or lose approximately 1 minute per month.
- Set the clock again after you have disconnected the power plug or a power is interrupted.

Turning On/Off the Main Unit

Used frequently

Press $\bigcirc^{\phi/I}$ (or $\bigcirc^{\phi/I}$ on the main unit).

• With the power off, pressing either button also turns on the main unit.

Remote control:

Main unit:

When a disc or cassette tape has been loaded, playback starts automatically.

NOTE

 Cooling fan is built into the main unit for emitting generated heat. When you turn on the main unit, the internal cooling fan automatically starts rotating.

Adjusting the Volume

Used frequently

Press +

AUDIO VOL

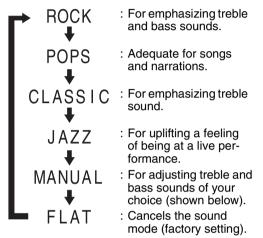

NOTE

- You can also adjust the volume by turning the VOLUME control on the main unit.
- You can adjust the volume within the range of 0 to 40.

Adjusting the Sound Quality

Selecting the sound mode

Press SOUND MODE

 While the sound mode is set to an item other than "FLAT", SOUND is displayed in the display window.

NOTE

This function does not affect recording sound.

Adjusting bass/treble sound

- 1 Press repeatedly to display "MANUAL".
- 2 For adjusting bass sound;

Press — +.

- You can adjust the sound quality within the range of -5 to +5.
- The display returns to the sound source display in a few seconds.

NOTE

 While the sound mode is set to an item other than "MANUAL", "NO OPERATE" is displayed in the display window and you cannot adjust bass/treble sound.

Temporarily Turning Off the Sound (FADE MUTING)

Press FADE MUTING

- "FADE MUTING" appears and the volume reduces to "0".
- To return to the previous volume, press

 FADE MUTING again.

Emphasizing Heavy Bass Sound (AHB PRO)

Press AHB PRO

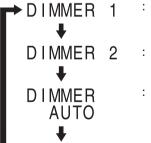

- Each time you press On, AHB PRO function changes between "ON" and "OFF".
- While AHB PRO function is activated,
 AHB PRO is displayed in the display window.
- "AHB PRO" stands for "Active Hyper Bass PRO".

Changing the Display Brightness (DIMMER)

You can change the brightness of the display window, the disc tray, and the circumference of the VOLUME control.

Press OIMMER.

• Each time you press \bigcap^{DIMMER} , the display changes as follows.

DIMMER

: Color pattern becomes dimmer.

: Color pattern becomes darker, and switches to blue.

: DIMMER 2 is automatically selected during video playback, and is canceled when the playback stops.

OFF: Cancels the brightness adjustment (factory setting).

NOTE

- You cannot turn off the color pattern.

Changing the Color Patterns

Press (or occes on the main unit).

Each time you press On the color of the display window, the disc tray, and the circumference of the VOLUME control changes as follows.

- You cannot set different colors for the color of the display window, the disc tray, and the circumference of the VOLUME control.
- When you operate a button on the main unit or remote control, the display window, the disc tray, and the circumference of the VOLUME control light in pale blue for approximately 2 seconds.
- When recording finishes, the color of the display window, the disc tray, and the circumference of the VOLUME control switches to red to inform you that recording has ended. Next time you press a button, the color pattern returns to the selected pattern.

Selecting the Color System and the Video Processing System (SCAN MODE)

Before playing back video discs, you need to select the color system and the video processing system.

NOTE

 Make sure that the main unit is connected with the TV using a component video cord when you select the progressive mode (L) page 15).

1 Press pvb, and then press

Hold down SCANMODE for approximately 2 seconds.

 Currently selected color system and the video processing system appear on the display window.

3 Press to select the desired system.

PAL	PAL color system in the interlace mode is selected.
PAL PROG.	PAL color system in the progressive mode is selected. Make sure that the TV supports PAL progressive video input (Page 15).
NTSC	NTSC color system in the interlace mode is selected.
NTSC PROG.	NTSC color system in the progressive mode is selected. Make sure that the TV supports NTSC progressive video input (Page 15).

"PAL PROG." or "NTSC PROG." gives finer detailed images than "PAL" or "NTSC".

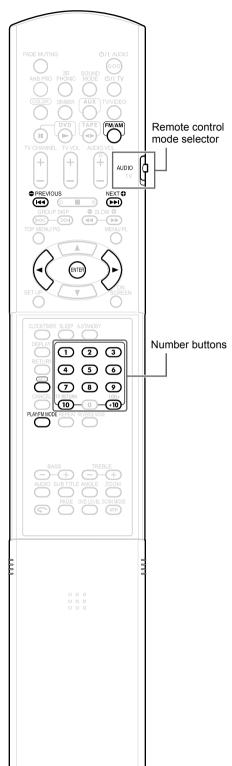

4 While the selected system is displayed, press [NTE].

- Some TVs may not be compatible with the progressive mode. In this case, select "PAL" or "NTSC".
- All progressive TVs and High-Definition TVs manufactured by JVC are compatible with "PAL PROG." and "NTSC PROG."
- Before playing back a disc, it is also required to select the correct "MONITOR TYPE" in the "PIC-TURE" menu according to the aspect ratio of your TV (P page 39).
- If you play back an NTSC disc with this setting set to "PAL" or "PAL PROG.", you can watch the playback pictures (the disc will be reproduced using "PAL 60" format), but the TV screen may rolls over upward and downward rapidly.
- If you play back a PAL disc with this setting set to "NTSC" or "NTSC PROG.", you can watch the playback pictures, but the following symptoms may occur:
 - The items on the disc menu will be blurred, and be shown slightly shifted when highlighted.
 - The aspect ratio of the picture may differ from the original aspect ratio.
- The picture movement is not smooth.

Listening to Radio Broadcasts

Used frequently

This product can receive FM and AM radio broadcasts.

• Set the remote control mode selector to AUDIO AUDIO before using the number buttons. TV

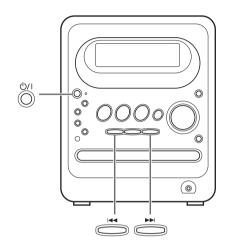

CAUTION

Setting the AM Tuner Spacing

Some countries space AM stations 9 kHz apart, and other countries use 10 kHz spacing.

On the main unit ONLY:

■When the main unit is turned off

To select 10 kHz spacing, while holding down on the main unit, press on the main unit to turn on the power. "AM 10 kHz SP" appears in the display window.

To select 9 kHz spacing, while holding down on the main unit, press on the main unit to turn on the power. "AM 9 kHz SP" appears in the display window.

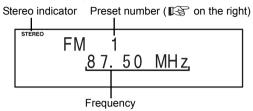

NOTE

• If the spacing is switched, the memory in which the radio stations were stored will be erased.

Selecting a Radio Station

1 Press to select "FM" or "AM".

Example: While an FM radio broadcast is received

Press or Previous or repeatedly to select a radio station (frequency).

 You can also select a radio station using the automatic tuning.

Automatic tuning:

Hold down PREVIOUS or WITH until the frequency starts changing, and then release the button.

When the main unit has received a broadcast, the frequency automatically stops changing.

To quit the function while searching for a broadcast, press PREVIOUS or NEXTO (FF).

 When the main unit has received an FM stereo broadcast, "STEREO" lights up.

Switching the FM reception (stereo/monaural):

If an FM stereo broadcast is difficult to hear because of noise, you may be able to hear more easily by pressing PLAY/FMMODE to switch the sound to monaural reception. In this case, "MONO" lights up. To return the sound to stereo reception, press

Storing Radio Stations (Preset)

You can store up to 30 FM radio stations and up to 15 AM radio stations.

- ■While the broadcast from the radio station you want to preset is being received
- 1 Set the remote control mode selector to AUDIO.

- 2 Press
 - The preset number flashes for approximately 5 seconds.
- While the preset number is flashing, press the number buttons

(1 - 10 or 40) to select the preset number you want to use.

- Refer to "Using the number buttons" (Page 16).
- You can also select the preset number by pressing (•) or (>).
- 4 While the selected number is flashing, press or or .
 - "STORED" appears and the selected radio station is stored.

NOTE

- The type of FM reception (stereo/monaural) is also stored (on the left).
- When you store a radio station to a preset number to which another radio station has previously been stored, the newly set radio station replaces the previously stored radio station.

Tuning In to a Preset Radio Station

- ■While an FM or AM broadcast is being received
- Set the remote control mode selector to AUDIO.

- 2 Use the number buttons to select the preset number of the radio station to which you want to tune in.
 - Refer to "Using the number buttons" (\$\mathbb{\mathbb{P}}\$ page 16).
 - You can also select the preset number by pressing (or).

Basic Operations of the DVD Player

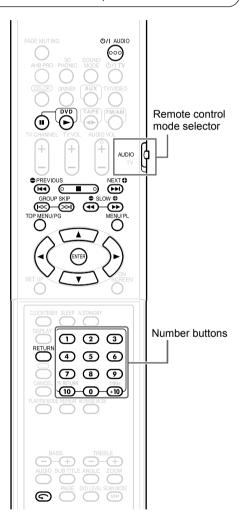

How to read this manual

- Operations are described by mainly using the remote control buttons. If there are the same marks on the main unit, the buttons on the main unit can also be used.
- The following marks tell you for which type of the discs the operation can be made.

- The illustrations and TV screens may be different between the actual case and the description.
- "DVD VR" means a DVD recorded in DVD Video Recording (DVD VR) format.
- "VCD" stands for "Video CD".
- · "SVCD" stands for "Super Video CD".

NOTE

 \bullet Set the remote control mode selector to $_{\rm AUDIO}$ AUDIO before using the number buttons. $_{\rm TV}$

NOTE

- If no operation is made for several seconds during the procedure, the settings made so far will be automatically stored.
- "VFP" stands for "Video Fine Processor".

Creating Realistic Sound (3D PHONIC)

DVD DVD DVD VCD C D MP3 WMA

The two speakers produce an effect resembling surround-sound.

■While a disc is being played back

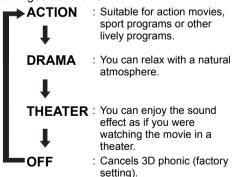

Press PHONIC

Example: For DVD VIDEO

TV screen

• Each time you press changes as follows.

• While 3D phonic is activated, 3D PHONIC is displayed in the display window.

- 3D phonic is effective for both the speakers and headphones.
- When noise is produced or sound is distorted, set "3D PHONIC" to "OFF".
- This operation may not work with some discs.
- The volume may be increased automatically after "3D PHONIC" is activated for some discs.

Adjusting Playback Level (DVD LEVEL)

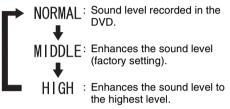

DVD DVD

The audio of a DVD VIDEO and DVD AUDIO may be recorded at a lower level (volume) than for other types of disc. You can adjust the DVD level.

■While a disc is being played back

Press OVD LEVEL.

 Each time you press , the display changes as follows in the display window.

 Select the level while listening to the sound played back.

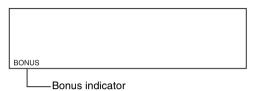

NOTE

- DVD level is effective only for playback of a DVD.
- Even if the DVD level is changed, the output level from the digital audio output terminal will not be changed.
- This function does not affect the recording sound being recorded.

Playing Back the Bonus Group

DVD AUDIO

Some DVD AUDIO discs have a special group, called a "bonus group", recorded.

- This operation can be carried out when "BONUS" is lit in the display window on the main unit.
- ■While a disc is being played back
- 1 Set the remote control mode selector to AUDIO.

- Press repeatedly during playback to select a bonus group.
 - "KEY___" appears on the TV screen and in the display window on the main unit.
- 3 Press the number buttons to enter the pin code (4 digits).
 - The method of obtaining the pin code differs depending on the disc.
- 4 Press (NTER).
 - When a correct pin code is entered,
 "BONUS" disappears and the playback of the bonus group starts.
 - If an incorrect pin code is entered, try entering a correct pin code again.

Browsable Still Pictures (B.S.P.)

DVD

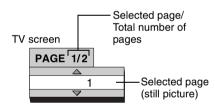

There are some DVD AUDIO discs with still pictures recorded. Among the still pictures, there are pictures called B.S.P. (browsable still pictures). You can change these pictures as if turning over pages.

- This operation can be carried out when "B.S.P." is lit in the display window on the main unit.
- ■While a disc is being played back

1 Press C.

- Each time you press https://www.html.
 the still picture will be switched over.

2 Press (ENTER).

The B.S.P setting will be stored automatically in a few seconds even if is not pressed.

NOTE

 You can operate this function on the menu bar (page 35).

Playing Back the Disc in the Desired Order (Program Playback)

DVD DVD VCD C D MP3 WMA

You can program a maximum of 99 chapters or tracks. You can program the same chapter or track more than once.

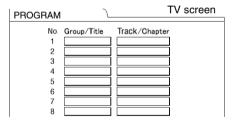

- ■While a disc is stopped
- 1 Set the remote control mode selector to AUDIO.

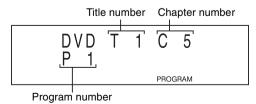

- 2 Press to select "PROGRAM".
 - In case you have pressed PLAVIFIA MODE more than twice, press PLAVIFIA MODE repeatedly to display "PROGRAM".

Example: For DVD VIDEO

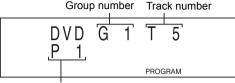

- ■Display for DVD VIDEO
 - Select a title number, and then select a chapter number.

■ Display for DVD AUDIO

 Select a group number, and then select a track number.

Program number

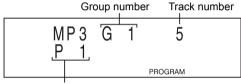

■ Display for CD/VCD/SVCD

· Select a track number.

 "VCD" is displayed while a VCD/SVCD is selected.

■Display for MP3/WMA

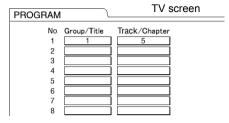

Program number

"WMA" is displayed while a WMA is selected.

NOTE

When you want to erase the program, press while playback is stopped. Programmed tracks are erased one by one from the last program. Holding down cancel erases all programmed tracks.

Example: For DVD VIDEO

- Refer to "Using the number buttons" (page 16).
- Before selecting a bonus group of a DVD AUDIO, cancel the "BONUS" display as explained in "Playing back the Bonus Group" on page 31.
- When you try to enter more than 99 chapters or tracks, "MEMORY FULL" appears.

4 Press DVD.

NOTE

 For a DVD VIDEO, DVD AUDIO, MP3 or WMA disc, if you press instead of specifying a track/ chapter number in step 3, "ALL" is displayed and all of the tracks/chapters included in the selected group/ title are programmed.

Confirming programmed content

While playback is stopped, press

PREVIOUS or NEXT⊕ repeatedly.

 During this operation, you can add a track as the last in the program, or erase the last track. (step 3)

Canceling program playback

While playback is stopped, press repeatedly to display an item other than "PROGRAM".

• This operation does not erase the programmed content.

Erasing the whole program

While playback is stopped, hold down

→.

 Ejecting the disc or turning off the main unit also erases the programmed content. This operation also cancels program playback.

Random Playback

DVD DVD VCD C D MP3 WMA

You can listen to tracks or chapters in random order.

■ While playback is stopped

1 Press repeatedly to select

Example: For CD

• "RANDOM" appears in the TV screen.

2 Press DVD.

NOTE

- Pressing repeatedly does not return playback to the previous track.
- · Each track is played back once.

Canceling random playback

While playback is stopped, press repeatedly to display an item other than "RANDOM".

NOTE

• Ejecting the disc or turning off the main unit also cancels random playback.

Repeat Playback

■While a disc is being played back

Press REPEAT.

Display on the TV screen	Display in the display window on the main unit	Repeat types
TITLE	REPEAT TITLE GALL	Repeats the current title
ALL or REPEAT ALL	REPEAT ÇALL	Repeats all tracks*1
GROUP*2 or REPEAT GROUP	REPEAT GROUP*2 GROUP*2	Repeats the current group*3
CHAP*4	REPEAT CHAP*⁴ ←	Repeats the current chapter
TRACK*4 or REPEAT TRACK	REPEAT C TRACK*4	Repeats the current track
OFF or no display	REPEAT OFF	Cancels repeat

^{*1} During the program playback, all programs are repeated.

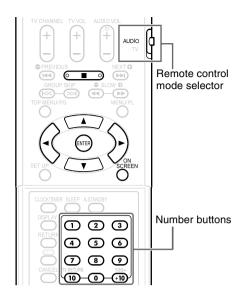

- You can also operate this function on the menu bar except when using this function with an MP3,WMA or JPEG disc (page 35).
- Repeat playback is automatically canceled for an unplayable MP3,WMA or JPEG discs.
- For details on A-B repeat (repeat playback of a designated part), refer to page 36.

^{*2} While the original program of a DVD VR is played back, "PG" is displayed. While the play list of a DVD VR is being played back, "PL" is displayed.

 $^{^{*3}}$ The current title is repeated for a DVD VR.

^{*4 &}quot;STEP" is displayed during program playback or random playback.

Status Bar and Menu Bar

DVD DVD DVD VCD CD

You can display the status bar and menu bar on the TV screen, and can control discs with the bars.

CAUTION

Set the remote control mode selector to AUDIO AUDIO before using the number buttons.

TV

Using the Status Bar and Menu Bar

■While a disc is being played back

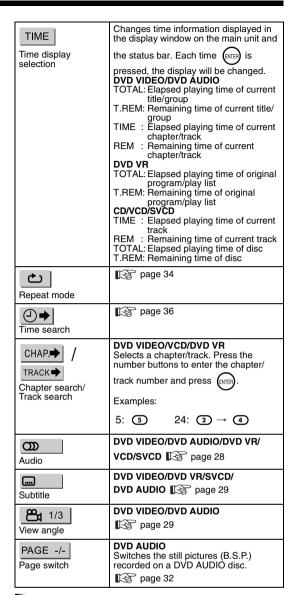

1 Press on twice.

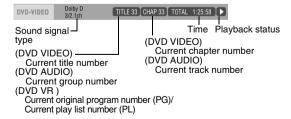

- The above is an example for a DVD VIDEO.
- 2 Press to select an item you want to operate.
- 3 Press (ENTER).
 - You can set the selected function. For the setting items, refer to the following "Function list".
 - The currently active function shows blue.
 - To cancel the menu bar, press on the screen.

Function list

Press to select, and press to determine unless otherwise noted.

Information displayed on the status bar DVD VIDEO/DVD AUDIO/DVD VR (the example below is for a DVD VIDEO)

VCD/SVCD/CD (the example below is for a CD)

NOTE

 The playback status mark has the same meaning of the mark on the on-screen guide (page 23).

Playing Back the Designated Part Repeatedly (A-B Repeat Playback)

DVD DVD DVD VCD VIDEO AUDIO VR SVCD C D

(PBC off)

■While a disc is being played back

1 Press CREEN twice.

• The menu bar (page 35) appears.

2 Press () to select off.

3 Press ENTER

4 Press to select

Press at the starting point of the part to be repeated (designating A point).

• The icon on the menu bar will be 🖒 -.

6 Press at the end of the part to be repeated (designating B point).

• The icon on the menu bar will be 🖒 🕹 🕒 🕒

"\$\infty\$ A-B" appears in the display window on the main unit and the part between A and B points is played back repeatedly.

Canceling A-B repeat playback

• To cancel A-B repeat playback:

Press ● ■ ●.

Select AB and press (Select OFF).)

* Select OFF.)

NOTE

 A-B repeat playback is possible only within the same title or track. A-B repeat playback cannot be carried out during PBC playback, program playback, random playback and repeat playback.

Designate the Time (Time Search)

DVD DVD DVD VCD C D

(PBC off)

■While a disc is being played back

Set the remote control mode selector to AUDIO.

2 Press CREEN twice.

• The menu bar appears (page 35).

3 Press (♦) to select ⊕.

4 Press (NTER).

5 Enter the time using the number buttons (1-9, 0).

Example: When you want to play back a disc from the position of (0 hour) 23 minutes 45 seconds, press the buttons in the order:

 $0 \rightarrow 2 \rightarrow 3 \rightarrow 4 \rightarrow 5$

 You can skip entering "minutes" and "seconds".

• If you enter wrong numbers, press delete the numbers, and then enter the numbers again.

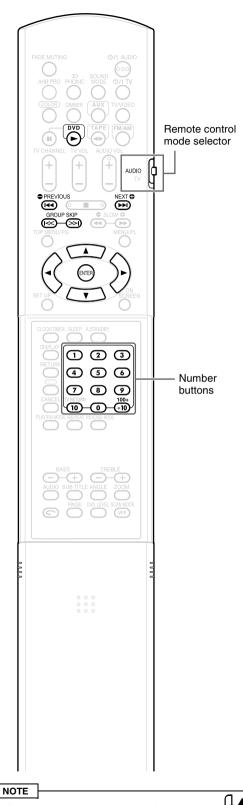

6 Press (NTER)

NOTE

• To delete the menu bar, press SCREEN

- This operation may not work with some discs.
- This function does not work during program playback or random playback.
- For a CD, this operation can always be carried out.
- Time search for a DVD VIDEO is from the beginning of the title, for a DVD AUDIO is from the beginning of the track being played back. Time search for a VCD, SVCD and a CD is as follows:
- When the disc is stopped, time search is from the beginning of the disc.
- When the disc is being played back, time search is within the track currently being played back.

Playing Back MP3/WMA and JPEG Discs

Playback

Display of an MP3/WMA disc is described here as an example.

For a JPEG disc, read "track" as "file".

NOTE

 When playing back a disc containing both MP3/ WMA and JPEG files, set one of them to be played (FILE TYPE" on page 39).

1 Insert a disc.

Example: For MP3

• TV screen

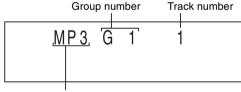

Tag information of the selected track (only for MP3s/WMAs)

Track list (Tracks contained in the selected group)

Example: For MP3

Display window

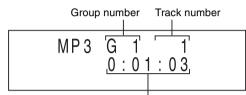

"WMA" is displayed when a WMA disc is loaded, and "JPG" is displayed when a JPEG disc is loaded.

• Set the remote control mode selector to AUDIO AUDIO before using the number buttons. TV

- 2 Press 🗘 🕶 to select a group.
- **3** Press \rightarrow to move to the track list.
 - Pressing returns to the group list.
- 4 Press to select a track.
- 5 Press or enter.

Example: For MP3 (during playback)

Elapsed playing time (This indicator is not displayed while a JPEG is loaded.)

- · At first, a track title (file name) is scrolled.
- When an MP3 or WMA is loaded, tag information (title/artist/album) is scrolled followed by a track title.
- Only alphanumerical one-byte characters are displayed properly as a track title or tag information.

NOTE

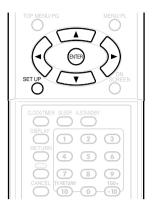

- You can also use GROUP SKIP in step 2.
- You can also use the number buttons in step 4. In this case, steps 3 and 5 are not needed. Refer to "Using the number buttons" (page 16).
- You can also use PREVIOUS or In step 4. In this case, step 3 is not needed.

Slide-show playback JPEG

- For a JPEG disc, when you press 5, files are continuously played back from the selected file (slide-show playback). When you press only a selected file is played back.
- A file is displayed for approximately 3 seconds in a slide-show playback.
- After all files are played back, the playback is automatically stopped.

Preferences

You can change the initial settings of this product according to the environment the product is used in.

NOTE

 The top and bottom of the preference screen may not be displayed on a wide TV. Adjust the picture size on the TV.

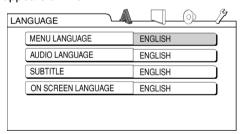

Basic Operations

This section explains basic operation for changing various settings.

■While a disc is stopped or no disc is loaded (while "NO DISC" is displayed)

Press SETUP. 1

• "SETTING" appears in the display window on the main unit and the following screen appears on the TV.

· Proceed with operations by following the description on the TV screen.

LANGUAGE

PICTURE

NOTE

- If the selected language is not recorded on the disc, the optimum language set for the disc appears.
- For a language code such as "AA", refer to the "Language Codes" (Propage 41).

Items	Contents
MENU LANGUAGE	Select the language for the DVD VIDEO menu.
AUDIO LANGUAGE	Select the audio language for the DVD VIDEO.
SUBTITLE	Select the subtitle language for the DVD VIDEO.
ON SCREEN LANGUAGE	Select the language displayed on the preference screens.

Items Contents (: initial setting) MONITOR Select a display method suitable for your TV. 16:9/16:9 MULTI (wide TV): TYPE Select this item when the aspect ratio of your wide TV is fixed to 16:9 (when playing back a DVD VIDEO recorded at 4:3, this product automatically adjusts the screen width of the output signal). 4:3 LB/4:3 MULTI LB (letter box) Select this item when the aspect ratio of your TV is conventional 4:3. While viewing a wide screen picture, the black bars appear on the top and bottom of the screen 4:3 PS/4:3 MULTI PS (pan scan): Select this item when the aspect ratio of your TV is conventional 4:3. While viewing a wide screen picture, the left and right edges of the picture will not be shown on the screen. (If the disc is not compatible with the pan scan, the picture will be displayed at the letter box ratio.) PICTURE SOURCE Select an item suitable to the video source. The video source type (a video or film) is automatically selected. FILM: Select this item when you want to view a film or video recorded with the progressive scan method. Select this item when you want to view a normal SCREEN Select the screen saver mode between ON /OFF SAVER (screen saver activates when there is no operation made for about 5 minutes since a still picture was last displayed). FILE If a disc includes an AUDIO file (MP3/WMA) and a TYPE STILL PICTURE file (JPEG), select which file is played back.

O AUDIO

Items	Contents (: initial setting)	
DIGITAL AUDIO OUTPUT	Select an output signal type from the following in accordance with the equipment connected to the digital audio output terminal (AV amplifier, etc.). (See the list below for the preference items and output signal.)	
	PCM ONLY: Equipment corresponding only to linear PCM.	
	DOLBY DIGITAL/PCM: Dolby digital decoder or equipment having the same function.	
	STREAM/PCM: DTS/Dolby digital decoder or equipment having the same function.	
DOWN MIX	Switch signal from the digital output terminal of the DVD VIDEO according to the connected equipment. Select this when "DIGITAL AUDIO OUTPUT" is set to "PCM ONLY".	
	DOLBY SURROUND: A dolby pro logic decoder-built-in equipment.	
	STEREO: An ordinary equipment.	
	When 3D phonic is activated, Down Mix does not work.	
D (Dynamic). RANGE COMPRESSION	To make adjustments for the difference between a high volume and a low volume when playing back with low volume (only for a DVD recorded with Dolby digital).	
	AUTO : D. range compression automatically works.	
	ON: D. range compression always works.	

Items	Contents (: initial setting)
RESUME	Select ON or OFF. (page 25)
ON SCREEN GUIDE	Select whether you display guide icons on the on-screen guide indicating status of a disc/main unit. (For details on the guide icons, refer to page 24)
AV COMPU LINK MODE	When you want to control JVC TV by using this product, select a mode that matches the terminal from the following. (For more details, refer to "Using AV COMPU LINK" on page 51.)
	DVD1: Connect to the video-3 input on the TV set or the DVD input on the amplifier.
	DVD2: Connect to the video-1 input of the TV set.
	DVD3: Connect to the video-2 input of the TV set.

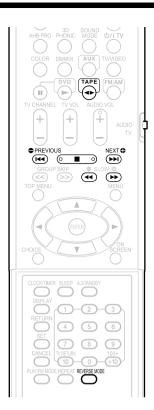

List of relationships of DIGITAL AUDIO OUTPUT preference items and output signal

Dlaybaak diaa	DIGITAL AUDIO OUTPUT preference		
Playback disc	STREAM/PCM	DOLBY DIGITAL/PCM	PCM ONLY

	Operation	
Stop	Press ⊚ ■ ⊚.	
Fast forward/ Rewind	Press NEXT → Or PREVIOUS. • When a cassette tape is played back in the normal direction (►), NEXT → is fast forward and NEXT → is rewind. • When the cassette tape is played back in the opposite direction (◄), PREVIOUS is fast forward and NEXT → is rewind. • You can perform the same operation by pressing ← Or ▶.	

1 Insert a cassette tape.

Cassette tape indicator

(The cassette tape indicator lights up while the cassette tape is stopped. The cassette tape indicator flashes while the cassette tape is being played back.)

Cassette tape playback direction (►: normal direction/◄: opposite direction)

CAUTION

- Before using a cassette tape, wind up any slack in the cassette tape. ("Handling casette tapes" on page 52)
- Do not use long cassette tapes such as C-120 or C-150. Long cassette tapes are thin and stretch easily, and may become tangled in the inner part of the main unit.
- This product is compatible with playback of TYPE I cassette tapes. Playback of TYPE II or TYPE IV cassette tapes is not recommended, because this product does not meet the specifications for these tapes. The main unit does not produce the proper sound from these cassette tape types.

2 Press repeatedly to select the reverse mode.

: For one return playback of both

: For repeated playback of both sides (Playback continues until playback is stopped.)

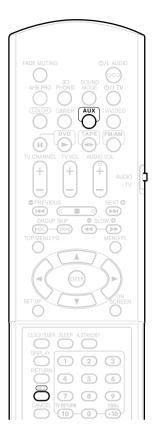

: For one-way playback of either side.

3 Press TAPE.

- Playback starts.
- When the main unit is turned off, pressing

 TAPE
 automatically turns on the main unit.
- Each time you press , the cassette tape playback direction changes. The initial playback direction after you have inserted a cassette tape is always the normal direction.
- The cassette tape playback direction indicator facing right ► is displayed during normal playback. The indicator facing left ◄ is displayed during reverse playback.

Listening to Other Equipment

1 Press Aux .

- 2 Start other equipment playback.
 - Refer to the operation manual for the connected equipment.
- 3 Adjust the volume and make other necessary settings.
 - For adjusting the volume and making other necessary settings, refer to "Basic Operations" (page 17).

Adjusting the Sound Input Level from Other Equipment

You can adjust the sound input level from the connected equipment.

 While the sound source is selected to AUX, you can adjust the sound input level.

Hold down in until the input level appears.

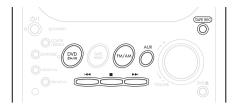

• Each time you hold down changes as follows.

LEVEL 1 : For ordinary use. (factory setting)

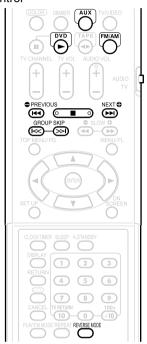

LEVEL 2 : For increasing the input level from the connected equipment.

Recording Sound to Cassette Tapes Used frequently

Main unit

Remote control

NOTE

- The sound input level during recording is automatically adjusted.
- When you record tracks from a disc, a 4-second blank is inserted between tracks in the recording. You can record tracks with no blank time.

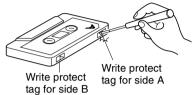

(Recording with No Blank Time between Tracks" on page 45)

CAUTION

- It may be unlawful to record or playback copyright material without the consent of the copyright owner.
- Do not use long cassette tapes such as C-120 or C-150. Long cassette tapes are thin and stretch easily, and may become tangled in the inner part of the main unit.
- · Since this product is not compatible with TYPE II and TYPE IV cassette tapes, do not use these types of cassette tapes. This product does not meet the specifications for these tapes, so sound is not properly recorded to these types of cassette tapes. You cannot obtain proper playback sound.

Preventing recorded sound from being erased

- Write protect tags are attached to a cassette tape for preventing the erasing of recorded sound. They enable you to avoid losing important recordings because once you snap off the write protect tags, you cannot record to the cassette tape or erase recorded material.
- When you want to use the cassette tape for recording again, cover the tag holes with adhesive tape.

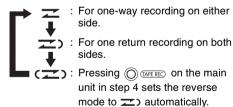

Insert a cassette tape for record-

· Before inserting the cassette tape, wind the tape past the leader part of the cassette

Press to select the reverse mode.

• Each time you press , the display changes as follows.

 You can change the reverse mode during recordina.

Select a sound source for recording.

 Before selecting a sound source. make sure to stop a disc.

Sound source	Operation
Disc	Press (DVD), and then press (DVD).
Radio broadcast	Select the radio station whose broadcast you want to record (page 21).
Sound from other equipment (AUX)	Press Aux and prepare playback on the other equipment (Par page 43).

Press OTAPERED on the main unit.

Example: Display while CD sound is recorded

- · When you record from a disc, all tracks are recorded to the cassette tape.
- When you want to record sound from other equipment, start playback on the connected equipment.
- · When recording finishes, the color of the display window, the disc tray and the circumference of the VOLUME control switches to red to inform you that recording has ended.

Quitting Recording

Press (○ ■ ○).

Recording Only One Track from a Disc

Before proceeding to step 4, play back the track you want to record.

- Pressing () TAPE REC in step 4 returns playback to the beginning of the track and only that track is recorded.
- · This one-track recording is not available for DVD VIDEOs or DVD VRs.

Recording the Second or Subsequent Track to the Last Track from a Disc

(For a DVD VIDEO or DVD VR: while the playback is paused)

(For DVD VR: only when recording in original program)

■ For a CD/VCD/SVCD/DVD VIDEO

Before proceeding to step 4, select the starting track/chapter number by

PREVIOUS or NEXT⊕. pressing

■For a DVD AUDIO/MP3/WMA

Before proceeding to step 4, select the

group number by pressing (R)

GROUP SKIP , and then select the track

number by pressing PREVIOUS or PRICE OF NEXT O

Program Recording from a Disc

Before proceeding to step 4, program the tracks you want to record (pg page 32).

Recording with No Blank Time between Tracks

Before proceeding to step 4, play back a disc, pause the playback, and then press PREVIOUS to return to the beginning of the first track.

Erasing Recorded Sound from a Cassette Tape

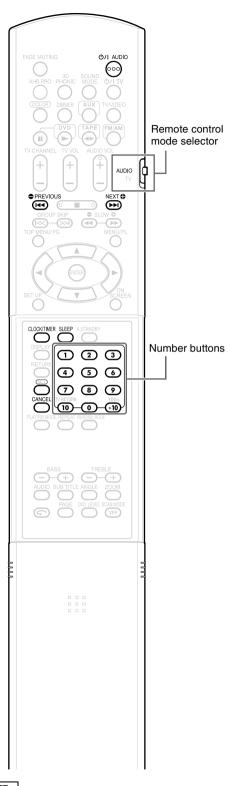

Select the sound from other equipment (AUX) in step 3, and then press

(TAPE REC) .

· Do not play back any tracks on the connected equipment.

NOTE

· If the cassette tape reverses direction while a track is being recorded from a disc, that track is recorded again from the beginning on the reverse side of the tape. However, if 12 or less seconds of that track were recorded on the first side of the tape, recording on the reverse side of the tape starts from the beginning of the previous track.

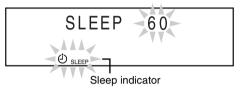

Sleep Timer

When the specified time passes, the main unit automatically turns off.

Press .

• Each time you press , the time display (in minutes) changes as follows.

Example: Display while the sleep timer is set to 60 minutes

NOTE

- When you set the sleep timer, the display window automatically dims.
- Before the clock has been set (While "0:00" is flashing), when you press "CLOCK ADJUST!" appears.

Changing the sleep timer setting

Press repeatedly to select the time again.

Confirming the sleep timer setting (remaining time)

With the sleep timer activated, press \bigcap^{SLEEP} once.

NOTE

Set the remote control mode selector to AUDIO AUDIO before using the number buttons.

Recording Timer

You can use the recording timer function to record FM/AM broadcasts or sound from other equipment to cassette tape.

You can enter up to three timer settings in total for the recording timer and the playback timer (Page 48).

NOTE

 Timer settings remain unchanged until the timer is replaced by new setting.

1 Prepare the sound source.

•	
Radio	Preset the radio station whose broadcast you want to record. (page 20)
Other equipment	Follow the operation manual for the equipment.

- 3 Press repeatedly to select "TIMER1", "TIMER2" or "TIMER3".

Example: When "TIMER1" is selected

- 4 Press .
- Press ♣ PREVIOUS NEXT and to set the starting time and ending time.

Example:To set the recording time from 6:30 a.m. to 6:45 a.m.

- You can use the number buttons to set the recording time. Refer to "Using the number buttons" (page 16).
- For setting the time, refer to "Setting the Clock", step 2 to 5 (page 16).

Entering the "hour" $\to \stackrel{\frown}{\bigcirc} \to$ Entering the "minute" $\to \stackrel{\frown}{\bigcirc}$

6 Press or Dept to select "ONCE" or "WEEKLY".

ONCE : The recording timer works

once.

WEEKLY : The recording timer works

weekly or every day.

- 7 Press 🛅.
- 8 Press PREVIOUS or PREVIOUS to select the desired day of the week.
 - Each time you press PREVIOUS or HAT , the display changes as follows.

When "ONCE" is selected.

When "WEEKLY" is selected.

- 9 Press 🛅.
- 10 Press ⊕PREVIOUS or ♠PREVIOUS to select "REC TIMER".
 - "REC" stands for "Recording".
- 12 Press or PREVIOUS or PREVIOUS to select a sound source.

Example: To record an FM broadcast to a cassette tape

- When you want to record sound from other equipment, you cannot use the recording timer function to start playback on any equipment other than this product.
- ■When you want to record an FM/AM radio broadcast
 - Press , and then press , NEXT or the number buttons to select the preset number of the radio station whose broadcast you want to record (page 21). Refer to "Using the number buttons" (page 16).

13 Press 💍

The settings appear in the display window.
 Confirm the settings.

14 Press to turn off the main unit.

See You

- While the recording timer is functioning, the volume is set to "0" and no sound is produced from the speakers or headphones.
- The recording timer is available only when the main unit is turned off.

NOTE

• During operation, you can return to the previous step by pressing CANCEL. You can quit the recording timer settings by pressing COCKTIMER. The settings are not stored.

Canceling the recording timer

In step 2 on page 47, select the timer number you want to cancel, and then press \bigcirc ^{CANCEL}. Even when you cancel the recording timer, the setting remains stored.

Activating the recording timer again

In step 2 on page 47, select the timer number you want to activate, and press . Then turn off the main unit.

Confirming the recording timer

In step 2 on page 47, press repeatedly. If you want to quit checking the recording timer, press

Changing the recording timer

Set the recording timer again from step 1 on page 47.

NOTE

- When you want to activate two or three recording timers, leave a blank time of 2 or more minutes between the ending time of the first recording timer and the starting time of the second recording timer. If the blank time is less than 2 minutes, the second recording timer does not work.
- When the power plug is disconnected or the power is interrupted, the recording timer settings may be lost. If the settings are lost, set the clock and recording timer again.

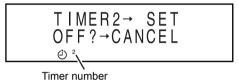

Playback Timer

Prepare the sound source you want to play back.

*******	to bind maoiii
Disc	Make sure that a disc is loaded. ((
Cassette tape	Insert a cassette tape. (P page 42)
Radio	Preset the radio station whose broadcast you want to listen to. (page 21)
Other equipment	Follow the operation manual for the equipment.

2 Press repeatedly to select "TIMER1", "TIMER2" or "TIMER3".

Example: When "TIMER2" is selected

- 3 Press .
- 4 Press PREVIOUS, NEXT and to set the starting time and ending time.

Example: When you want to set the playback time from 7:00 a.m. to 7:30 a.m.

- You can use the number buttons to set the playback time. Refer to "Using the number buttons" (Propage 16).
- For setting the clock, refer to steps 2 to 5 in "Setting the Clock" (page 16).

Entering the "hour" $\rightarrow \bigcirc$ \rightarrow Entering the "minute" $\rightarrow \bigcirc$

Press ⊕PREVIOUS or NEXT to select "ONCE" or "WEEKLY".

ONCE : The playback timer works once.

WEEKLY : The playback timer works weekly or every day.

6 Press .

(Continued on next page)

7 Press PREVIOUS or DEVIOUS to select the desired day of the week.

Each time you press PREVIOUS or PRICED , the display changes as follows.

When "ONCE" is selected.

When "WEEKLY" is selected.

- 8 Press 🛅.
- 9 Press ⊕PREVIOUS or ♠ to select "PLAY TIMER".
- 10 Press ______.
- 11 Press PREVIOUS or D to select the sound source you want to play back.

Example: When you want to listen to an AM broadcast

- When you want to listen to sound from other equipment, you cannot use the playback timer function to start playback on any equipment other than this product.
- You cannot use the playback timer function together with program playback, repeat playback, random playback, or group playback.
- When you want to listen to an FM/AM radio broadcast
 - (With "FM" or "AM" selected) Press , and then press (FAC), (PREVIOUS, NEXT® or the number buttons to select the preset number of the radio station whose broadcast you want to listen to (INS) page 21). Refer to "Using the number buttons" (INS) page 16).

- When you want to play back a DVD VIDEO, DVD AUDIO or DVD VR
 - (With "DVD/CD" selected) Press twice. Regardless of the displayed numbers of group (G) and track (T), you can play back a DVD VIDEO, DVD AUDIO, or DVD VR only from the beginning of the disc.
- ■When you want to play back a CD, VCD or SVCD
 - (With "DVD/CD" selected) Press twice, and then press PPEUTOUS, NEXT or the number buttons to select the number of a track (T) from which you want to start playback. Refer to "Using the number buttons" (Propage 16). The group number (G) is ignored.
- ■When you want to specify a track from which you want to start playback on an MP3 or WMA
 - (With "DVD/CD" selected) Press , pre
- **12** Press —.
- 13 Press PREVIOUS or PREVIOUS to adjust the playback volume.
- 14 Press 🖰.
 - · The settings appear in the display window.
- 15 Press o/I AUDIO to turn off the main unit.

See	You
© ²	

 The playback timer is available only when the main unit is off.

- During operation, you can return to the previous step by pressing CANCEL. You can quit the playback timer settings by pressing COOKTINEE. The settings are not stored.
- When the playback timer starts, the volume gradually increases to the selected level.

For the locations of remote control buttons, refer to page 46.

Canceling the playback timer function

In step 2 on page 48, select the timer number you want to cancel, and then press

Even when you cancel the playback timer, the setting remains stored.

Activating the playback timer again

In step 2 on page 48, select the timer number you want to activate, and press (ENTER). Then turn off the main unit.

Confirming the playback timer

In step 2 on page 48, press repeatedly. If you want to guit checking the playback timer, press

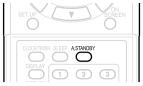

Changing the playback timer

Set the playback timer again from step 1 on page 48.

NOTE

- When you want to activate two or three playback timers, leave a blank time of 2 or more minutes between the ending time of the first playback timer and the starting time of the second playback timer. If the blank time is less than 2 minutes, the second playback timer does not work.
- When the power plug is disconnected or the power is interrupted, the playback timer settings may be lost. If the settings are lost, set the clock and playback timer again.
- When you operate the playback timer with a DVD VIDEO, DVD AUDIO or VCD, sound and video may not be played back automatically. A DVD VIDEO, DVD AUDIO or VCD may contain a disc menu that appears first when played back. Sound or video will not come out before you select the desired item to be played back on the disc menu.

Auto Standby

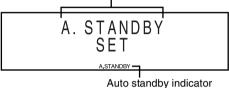

If no sound is produced for 3 minutes when the disc or cassette tape is selected as a sound source, the main unit automatically turns off.

■When the disc or cassette tape is selected as a sound source

Press

"A. STANDBY" stands for "Auto Standby".

Auto standby performance

When playback or recording finishes, auto standby starts the countdown (the "A. STANDBY" indicator flashes). When no operation is carried out within 3 minutes, the main unit automatically turns off. When you start playback or recording within 3 minutes, auto standby starts the countdown again after playback or recording finishes.

When an operation other than playback and recording finishes and no operation is carried out within 3 minutes, the main unit automatically turns off.

"A. STANDBY OFF" indicator starts to flash 20 seconds before the main unit is to turn off.

Canceling auto standby

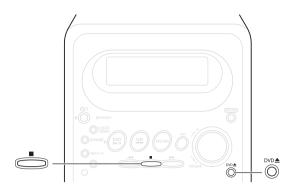

Press once again.

A. STANDBY CANCEL

NOTE

• Leaving the volume at "0" is not the same as producing no sound, and therefore does not start the auto standby function.

Disc Ejection Lock

You can prohibit ejection of a disc.

■When the main unit is turned off

While holding down , press on the main unit.

Even if you press , "LOCKED" appears in the display window and the disc does not come out. In addition, when you press , while the main unit is turned off, "LOCKED" appears in the display window and the main unit does not turn on.

Canceling the disc ejection lock

■When the main unit is turned off Carry out the operation explained above once again.

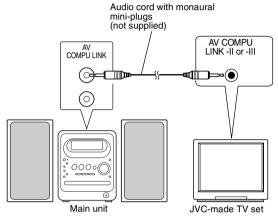

UNLOCKED

Using AV COMPU LINK

The JVC AV COMPU LINK system allows you to enjoy video or audio with the simplest operation. If your JVC TV set supports the JVC AV COMPU LINK system, simply starting the main unit will automatically make all necessary settings on the TV to allow you to enjoy the playback.

Connection and Setting

 Carefully read manuals of equipment to be connected.

Set the main unit's AV COMPU LINK MODE setting (1237 page 40) as follows.

- When connecting to the VIDEO-1 input terminal of the TV: DVD 2
- When connecting to the VIDEO-2 input terminal of the TV: DVD 3
- When connecting to the VIDEO-3 input terminal of the TV: DVD 1

Operations

You can enjoy sound or video simply by starting playback on the main unit. You do not have to select the input setting for the TV, or turn on the TV beforehand.

- 1 Turn on the main power to the TV.
- 2 Insert a disc into the main unit.
- **3** Press on the main unit.

The following operation is performed automatically.

- The TV set will be turned on.
- TV input will be switched to external input (Video 1, 2 or 3) of the main unit.

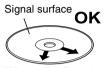

When you turn off the main unit, power to the TV is not turned off.

Handling Discs/Cassette Tapes

Handling discs

- Do not put adhesive tape or stickers, or write on a disc.
- Do not bend a disc.
- Be sure not to use heart/flower shaped discs or other irregularly shaped discs. The use of such discs damages the main unit.

Cleaning discs

Scratches concentrated on a certain part cause sound dropout.

• Be sure not to use thinners, benzenes, cleaners for analog records, or other chemical agents.

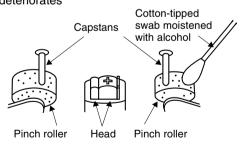

Handling cassette tapes

• A slack tape may become caught in the inner part of the main unit and damage the main unit.

Before using a cassette tape, wind up any slack in the cassette tape as shown on the right. Do not pull out the tape or touch the tape's surface.

Cleaning the tape deck head

 Clean the head, pinch rollers and capstans approximately every 10 hours of playback time before the volume falls or sound quality deteriorates

Cleaning the main unit cabinet

- Gently dust the cabinet surface with a soft dry cloth. When the cabinet is very dirty, dampen the cloth with a neutral detergent diluted with water, wring out the cloth well, and then wipe the cabinet with the dampened cloth followed by a soft dry cloth.
- Do not wipe the cabinet with thinners or benzenes. Wiping it with these agents may cause discoloration of the cabinet or removal of the paint. Do not spray insecticides or other highly volatile agents onto the cabinet. Do not leave pieces of rubber or plastic on the cabinet for a long period.

Disc Messages

Disc message	Meaning	Possible solution
CANNOT PLAY	You are trying to play back an unplayable disc or a disc that has many scratches.	Replace the disc.
NO DISC	No disc is loaded.	-
NO AUDIO	The disc may be an illegally copied disc.	You cannot listen to the disc.
LR ONLY	You are playing back a multi-channel track for which down-mix is prohibited.	This is normal operation.

Troubleshooting

Problem	Possible cause	Possible solution	Reference page
No sound/video is produced.	Improper connection.	Connect all cords properly as in "Connections".	11 - 15
produced.	Headphones are connected.	Disconnect the headphone plug.	8
The clock display is flashing.	A power failure occured or the power plug was disconnected.	Reset the clock.	16
Disc playback does not start.	The disc is upside down.	Place the disc on the disc tray with the letter-printed surface facing up.	22
	Moisture has condensed on the lens.	Leave the main unit turned on, wait for approximately 1 or 2 hours, and then operate the main unit.	3
A certain point cannot be played back properly.	The disc is scratched or dirty.	Clean or replace the disc.	52
The volume of cassette tape playback is low.	The head or capstans are dirty.	Clean the head or capstans.	52
You cannot record a cassette tape.	The cassette tape is write-protected.	Cancel the write-protection.	44
A radio broadcast cannot be received.	No antenna is connected.	Connect an antenna.	11
A whirring noise is produced.	The main unit is located close to a TV, computer, or other electric appliance.	Place the main unit away from a TV, computer, or other electric appliance.	3
	You did not set the clock.	Set the clock.	16
The timer does not work.	The main unit is turned on.	After setting the timer, turn off the main unit.	48, 49
You cannot operate the remote control.	The remote control batteries are running low.	Replace the batteries with new batteries.	9
You cannot operate the main unit with the number buttons on the remote control.	The remote control mode selector on the remote control is set to TV.	Set the remote control mode selector to AUDIO.	16
A noise comes from the rear of the main unit.	The internal cooling fan produces a noise as it rotates.	The noise is not a malfunction. This is to prevent excessive heat.	13, 17

• If this product does not function properly even after you have implemented the possible solutions given above

Many functions of this product are implemented by microcomputers. If malfunction is caused by thunder or static electricity, or the main unit does not function properly even when you press a button, disconnect the power plug from the AC outlet, wait for a while, and then connect this product again. Then reset the clock.
